Guide for Applicants to
ECUT-IAEA Project 2024
Master's and Doctoral Program

Application Deadline for 31 March 2024

- Interested applicants may submit their applications directly to East China University of Technology (ECUT) as per the academic requirements.

- The applications will be preliminary review and assessed by the ECUT in accordance with the eligibility criteria. Successful applications will be notified by the ECUT.

- After receiving notifications, the applicants who are considered for a fellowship support will be required to complete the IAEA Fellowship Nominations through InTouch+ and submit through the National Liaison Officers (NLOs) to the IAEA official channel. The applications should be relevant to either TC notional projects or regional projects and endorsed by the NLOs.

- Upon receiving the Fellowship Applications endorsed by the NLOs, the IAEA will review and forward the selected applications to the ECUT as per the standing procedures and will coordinate provision of follow-up support.

- The applicants are advised to note and adhere to the application deadline (31 March 2024) required by the ECUT.

- The official Application Guide for Admission is announced by the ECUT in their Web site below.
