

Benchling Connect

Instrument integration list

Below is the list of instrument integrations available through Benchling Connect as of September 2023. We're continuing to grow the number of available integrations.

In addition, you can transmit flat files between your lab PC and Benchling using Connect's generic file watcher feature.

To learn more, reach out to your Benchling Account Executive or Customer Success Manager.

Category (in alphabetical order)	Instrument / instrument software	Software version(s) supported	Integration type	File types supported
Cell counters	Beckman Coulter Vi-CELL BLU	1.3	File-based	CSV
	Beckman Coulter Vi-CELL XR	2.6	File-based	XLS, XLSX
Cell culture analyzers	Nova Biomedical BioProfile® FLEX2	N/A	File-based	CSV
	Roche Cedex Bio HT	6	File-based	TXT
dPCRs	Thermo Scientific™ AbsoluteQ Digital PCR Software	6.2.1	File-based	CSV
HPLCs	Thermo Scientific™ Chromeleon™	7.2.10	API-based	N/A
Liquid handlers	Hamilton VENUS	6	File-based	CSV
	Tecan FluentControl™	3.3	File-based	CSV
Plate readers	Agilent BioTek Gen5	3.12	File-based	TXT
	Molecular Devices SoftMax® Pro	7.1.2	File-based	TXT
	PerkinElmer EnVision®	1.14	File-based	CSV
qPCRs	Thermo Scientific™ QuantStudio Real-Time PCR Software	1.7.2	File-based	TXT
