

S.I.; writing—original draft preparation, C.N.E. and M.V.; writing—review and editing, R.D. and R.S.; funding acquisition, R.D. All authors have read and agreed to the published version of the manuscript.

**Funding:** This work was funded by VA Career Development Award (CX001771-01A2), the University of Pittsburgh Dean’s Faculty Advancement Award, and publication costs were supported through Johnson and Johnson (RD).

**Institutional Review Board Statement:** Ethical review and approval were waived for this study by the VA Pittsburgh Healthcare System, due to it being a quality initiative and not constituting research.

**Informed Consent Statement:** Not applicable.

**Data Availability Statement:** All data are available upon request from the corresponding author (RD).

**Acknowledgments:** We would like to thank Mary Van Buskirk, CRNP, for her assistance with this project and the robotic bronchoscopy program.

**Conflicts of Interest:** The authors declare no conflict of interest.

**Publications/Presentations:** Data have not been published and are not submitted for publication elsewhere. They have been presented at the Association of VA Surgeons Meeting in 2021 (virtual).
