

FUTURE LEADERS OF ROBOTIC-ASSISTED ENDOSCOPY

FELLOWS PROGRAM

FUTURE LEADERS OF ROBOTIC-ASSISTED ENDOSCOPY

The MONARCH® Fellows Program is a multifaceted program focused on the unique clinical utility of the MONARCH® Platform for both diagnostic and therapeutic procedures. In addition, interested fellows will gain real world insight from key physician leaders and top hospital executives as they transition out of fellowship into practice.

PROGRAM HIGHLIGHTS

Interactive discussion with expert users

In-depth, hands-on simulation

Live case experiences

Shared medical practice business insights

MORE INFORMATION

The MONARCH® Fellows Program is intended for final year fellows that are being trained and interested in advanced diagnostic and therapeutic procedures.

To learn more or to register for the MONARCH® Fellows Program [visit here](#).

PROGRAM DIRECTORS
