

TELADOC HEALTH VITA

# Increase efficiency and provider independence

## Increase efficiency and independence in high-volume patient settings

Provide world-class virtual care across multiple clinical settings with the cutting-edge technology of the Vita.

With advanced features including AutoDrive®, remote clinicians can control or automatically traverse to a patient care location, increasing efficiency and independence in high-volume patient settings with demanding clinical workflow.

-  **Streamline clinical workflow** by eliminating the need for staff to move and set up a telemedicine device at the bedside
-  **See every detail** for close-up diagnosis and patient care oversight with a high-definition pan-tilt-zoom camera head
-  **Improve usability** for remote doctors in unfamiliar care locations using AutoDrive to navigate to pre-determined patient care locations
-  **Enhance usability** with a simple interface featuring an integrated stethoscope, privacy headset and I/O ports for verified¹ peripherals

Driven to deliver  
world-class  
patient care

## Industry-leading connectivity and 24/7 proactive monitoring to ensure successful telehealth connections<sup>2</sup>

<sup>1</sup>Please check MB-20118 Product Matrix for latest updates.

<sup>2</sup>Monitoring and support are dependent on the support tier selected.
