

# The first clinical and administrative healthcare solution to integrate with Microsoft Teams

## Leading the industry

**#1 rated** vendor for giving customers their money's worth<sup>1</sup>

**#1 rated** vendor for clinician and patient experience<sup>1</sup>

**#1 rated** video conferencing platform<sup>2</sup>

Care team collaboration and access to relevant clinical data are essential to driving improved patient outcomes and satisfaction. Teams collaboration capabilities makes it easier than ever to expand care delivery, streamline clinicians' workflow, and provide a positive patient experience across the care continuum.

### Key benefits:

#### **Integrated, streamlined workflows:**

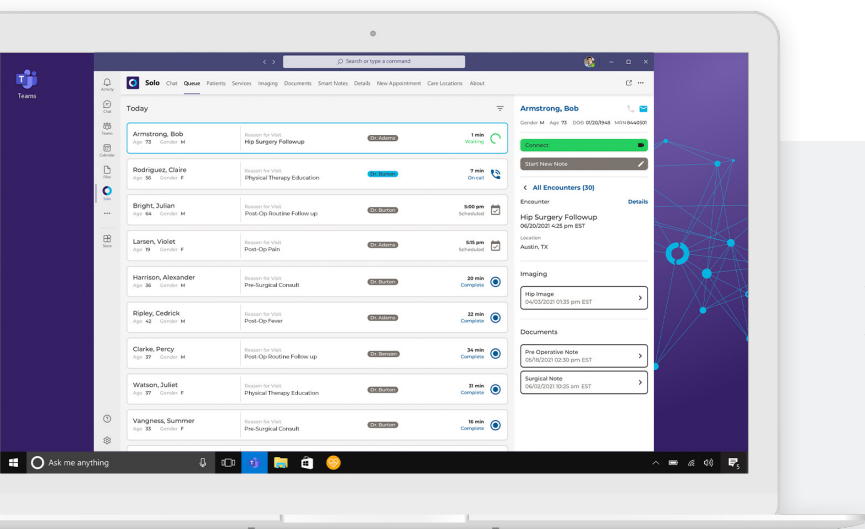

Solo with Teams integrates with your existing technologies, including EHRs and in-room devices—allowing care teams to communicate in any clinical workflow

#### **Unified, purpose-built environment:**

An intuitive, collaborative virtual care experience reduces the administrative burden while easing record-sharing and care team engagement

#### **Secure, 24/7 patient care**

The Teladoc Health and Microsoft platforms are HITRUST certified, and 24/7 availability ensures patient data stays secure and compliant while meeting changing workforce and patient needs

Solo with Microsoft Teams brings together world-class communication tools with the world's leading virtual care platform to ease care delivery across your organization and beyond

## A best-in-class communication platform for expanded care delivery

Solo with Teams adds industry-leading communication tools to a unified, secure and full-featured platform to deliver virtual and in-patient care across the care continuum—without the need for additional systems, sign-ins or aggravation. Optimize clinical efficiency, improve patient satisfaction, reduce burnout, and increase profitability, all while supporting your organization's telehealth goals for today and tomorrow.

### Consumer Care

Offer on-demand or scheduled access to your care team and underscore clinical quality guidelines from anywhere

### High-Acuity Care

Provide life-saving care when minutes matter most by fostering greater clinical collaboration in critical care environments

### Continuing Care

Connect your specialists and clinicians to patients wherever they may be, as they move to lower-acuity care sites

### Chronic Care<sup>3</sup>

Empower people with chronic conditions to live healthier lives through behavior change tools, health coaching and personalized plans for reaching their health goals
