

TELADOC HEALTH MINI

Innovative and ready for telehealth interactions

Improved audio and video for exam rooms and clinics

Designed to be lightweight and inviting, the Mini incorporates the best features from our more advanced telehealth devices in a compact, maneuverable form factor.

The articulating head gives patients and on-site staff the experience and familiarity of a face-to-face encounter with the remote clinician. The Mini enables better communication and maximum comfortability.

Designed for successful telehealth connections

- Purpose-built with a minimal footprint for compact exam rooms
- Articulating head creates comfortable, natural clinician-to-patient interactions
- Two-speaker system with directional microphone optimizes audio quality
- High-definition camera with 19x zoom for detailed examinations
- Peripheral ready to support detailed observations in a multitude of care settings

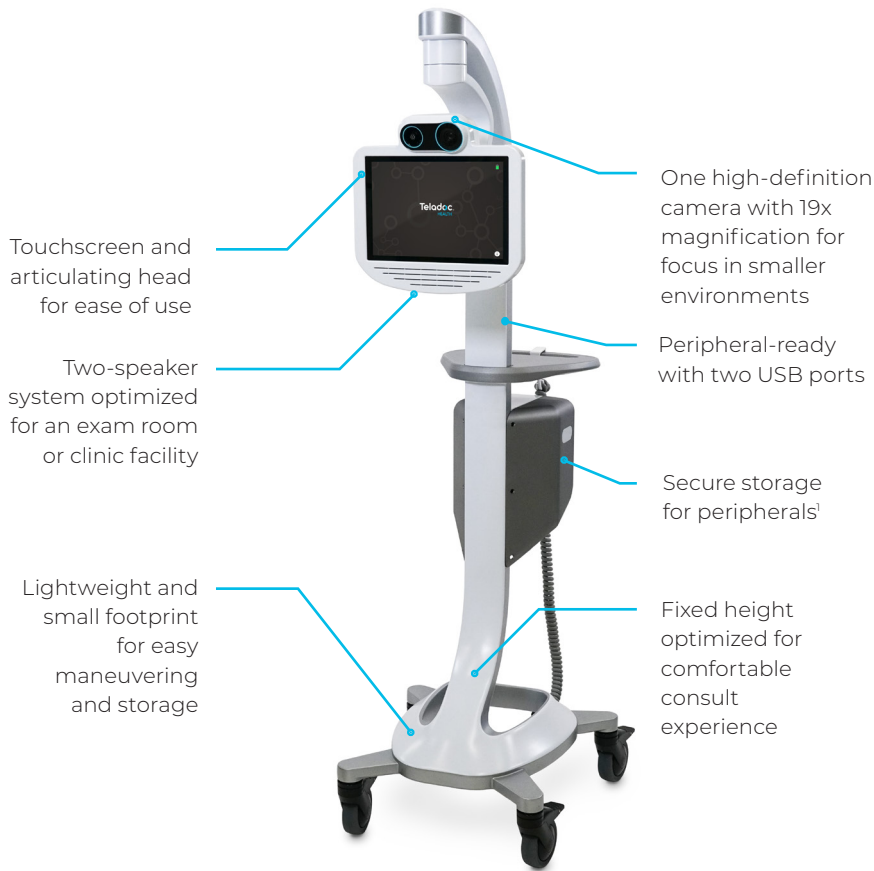

Designed for

- Behavioral health
- Specialty clinics

A high-quality, compact device for excellent patient care

Perfect for specialty clinic and exam room settings

Three variant options for diverse settings and use cases

Mini Cart with Backpack

Facilitate care in exam rooms and move between locations with peripheral and diagnostic equipment storage available
