

TELADOC HEALTH VIEWPOINT

Easy to download and scale

Bring care directly to your patients

Viewpoint software empowers hospital systems with the flexibility to scale access to high-quality, reliable care.

Extend your local and regional coverage by bringing care directly to where your patients typically receive care, such as clinics, skilled nursing facilities, and rehab centers.

A scalable solution

Available as both downloadable software for existing devices or a preinstalled, turnkey solution for Windows and iOS tablets, Viewpoint gives you a scalable solution to extend remote care in any location.

Viewpoint lets you

Transform Windows or iOS devices

into a telehealth device with a physician

Improve patient satisfaction

with the convenience to access your care at home

Drive system-wide adoption

with an easy-to-use solution for both patients and providers

Expand access to convenient patient care

Industry-leading connectivity and 24/7 proactive monitoring to ensure successful telehealth connections¹
