## The technology to connect, expertise you can trust and the power to improve health

Teladoc Health is the world's only integrated virtual care system for delivering, enabling and empowering whole-person health—from wellness and prevention to acute care to complex healthcare needs.

We bring our depth and breadth of experience serving the Canadian market—including insurers, employers, hospitals and health systems—to offer greater access to care, available whenever and wherever people need it. With Teladoc Health as your partner, you can deliver a seamless member experience that has a positive impact on health and financial outcomes.

## Our solutions

### Deliver virtual care for consumers

Virtual care services across many clinical specialties help people resolve acute care needs and gain expert advice for complex health challenges.

- Integrated care models
- Telehealth services
- Mental health services
- Expert medical services

### Enable virtual care for clinicians

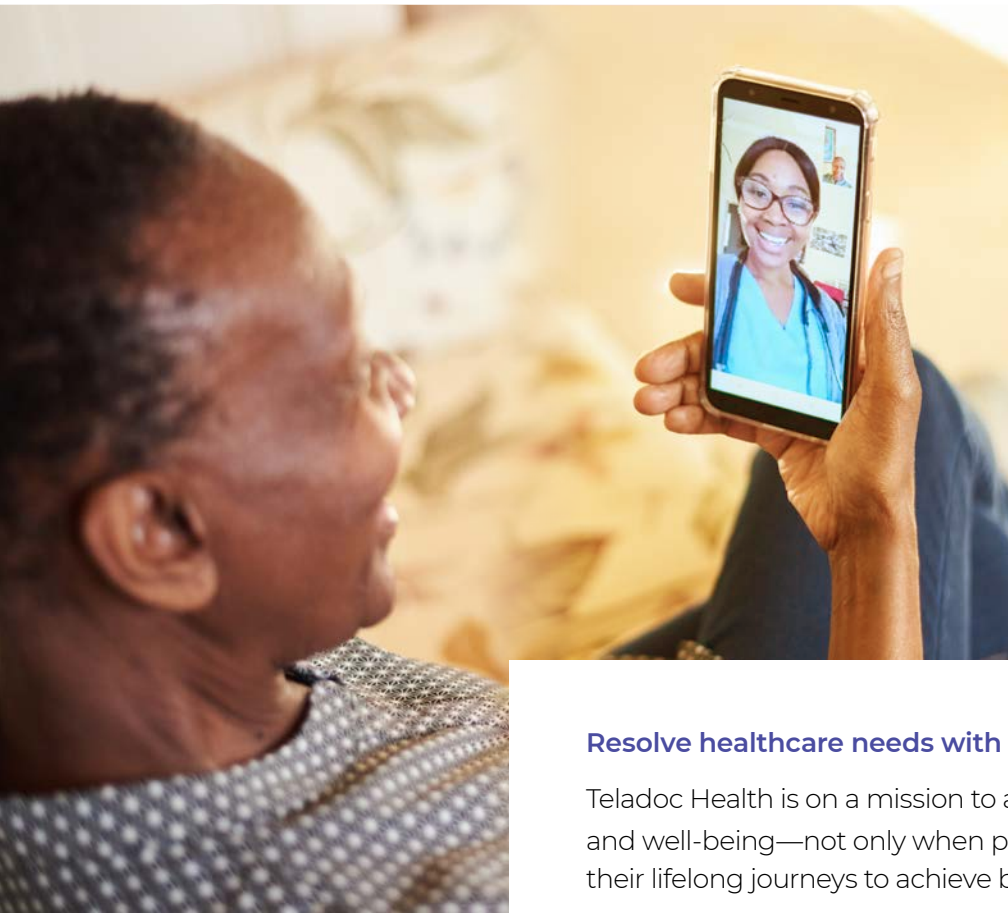

Software, medical-grade telehealth devices and tailored services support enterprise virtual care programs that extend care from the hospital to the home.

- Software platforms
- Telehealth devices
- Program services

### Empower healthier lives

Personalized, timely, actionable tools and support for people living with chronic conditions, such as diabetes, hypertension and kidney disease, available whenever and wherever.

- Connected remote-monitoring devices
- Digital behavior-change programs
- Expert health coaching

### Resolve healthcare needs with confidence

Teladoc Health is on a mission to address the full spectrum of health and well-being—not only when people are sick but also throughout their lifelong journeys to achieve better health.

Access to doctors is fast, the care is top-notch and the value back to plan sponsors is a healthy and productive workforce. Teladoc Health is playing an increasingly important role in the well-being of our insureds.”

**Dave Angus,**  
President of Johnston Group

### We achieve this through:

- A deep understanding of the local needs, regulations and expectations of our clients and consumers
- Our flexible platform that accommodates emerging clinical solutions, increased access to care, diverse consumer needs and our clients' growth
- High-quality, credible clinical solutions that support consumers in their moment of need and over time, as well as aid care providers' clinical decision-making
- Best practices in consumer engagement to drive adoption and behavior change
- Proprietary, tech-enabled solutions and devices that ease healthcare communication, collaboration and access for consumers, care providers and organizations
