An affordable telehealth option

Transform any HDMI-enabled TV or monitor into a world-class telehealth solution

This low-cost telehealth solution provides the flexibility to expand your regional presence and reach across the patient journey.

**Purpose-built capabilities**

Using a high-performance camera with pan-tilt-zoom capability, TV Pro and TV Pro+ enable detailed examinations and reading of patient monitoring devices from a distance, effectively placing the clinician in the room with the patient.

**Easily assembled**
and fully functional in minutes

Leverage existing HDMI-enabled TVs or monitors to create telehealth endpoints

**Includes a high-performance pan-tilt-zoom camera**
with up to 20x optical zoom for close examination

**Echo-canceling speakerphone**
for high-quality audio experience

**Preloaded with the Solo™ software operating system**

**Optional night vision camera for TV Pro+**
for less intrusive oversight while patients are asleep

**Wide variety of use cases**
including rapid response, education, interdisciplinary rounding, specialty consuts and discharge visits

TV Pro and TV Pro+ are ideal for detailed telehealth exams in fixed locations
