

# From Fragmented Data to Reliable Insights

## Stitch

Join the dots so stories line up.

## The Pain

Same customer...five IDs. Same KPI... four versions.

## What We Do

Unify records... set rules... keep it clean tomorrow, not just today.

## How it Helps

Self-correcting pipelines stop bad data at the door.

## The Output

90% less bad data hits models... 50% fewer model failures.

Comment **CLEAN** for a before/after checklist.
