## Mammut

Since 1862, Mammut has developed high-performance equipment trusted by mountaineers and outdoor professionals worldwide. What began as a small Swiss rope manufacturer has evolved into a global premium brand known for technical innovation, durability and reliability in demanding environments.

Built on more than 160 years of Alpine expertise, Mammut products are designed to perform where quality and functionality matter most.

The Mammut Corporate Collection enables companies to equip their teams with premium apparel and equipment that combine technical performance, modern design and long-lasting quality. From branded corporate apparel to professional team outfitting and corporate gifting, our collection supports organizations looking for products that reflect both performance and identity.

## Corporate Responsibility

Respect for nature has always been at the heart of Mammut's heritage. Inspired by our Alpine roots, we are committed to reducing our environmental impact and continuously improving the way our products are designed, sourced and manufactured.

Our approach focuses on three key areas: responsible materials, long-lasting product design and transparent supply chains. By prioritizing durability, repairability and responsible production standards, we aim to create products that perform reliably while contributing to a more sustainable future.

For our corporate partners, this means working with a brand that values quality, responsibility and long-term thinking, principles that guide both our products and our partnerships.

## TECHNOLOGIES

GORE-TEX products are built to be durably waterproof, windproof, and breathable. GORE-TEX membrane allows moisture vapor to escape while preventing water and wind from entering, ensuring reliable protection and comfort.

Polartec® fabrics are known for their advanced thermal performance and breathability. Designed to provide warmth without excess weight, Polartec materials efficiently manage moisture and temperature.

Vibram® is a global leader in high-performance rubber outsoles. Vibram soles are engineered for grip, durability, and stability across a wide range of terrains, offering confidence and traction in demanding outdoor and alpine conditions.

Mammut DRY is waterproof and breathable membrane technology, designed to provide reliable weather protection. It keeps wind and rain out while allowing moisture vapor to escape, ensuring comfort, durability, and performance during a wide range of activities.

Flexguard® is a durable reinforcement technology designed to provide enhanced protection in high-wear areas without compromising flexibility. It is commonly used in alpine and mountaineering footwear and apparel to improve abrasion resistance, structure, and longevity.

Mammut Loop Insulation is a synthetic insulation technology developed with a focus on circularity and reduced environmental impact. Made from recycled materials, it delivers reliable warmth, breathability, and easy care, even in damp conditions, while supporting a more sustainable product lifecycle.

## RESOURCEFULNESS

The bluesign® SYSTEM is a solution for sustainable textile production that eliminates the use of harmful substances. bluesign® PRODUCTS guarantee a responsible use of resources with a minimum impact on people and the environment.

Fair Wear works to ensure fair and safe working conditions in garment factories. The non-profit engages directly with factories, trade unions, NGOs and governments to protect workers' rights.

Organic cotton is grown without synthetic pesticides or fertilizers, helping to reduce environmental impact and protect soil health. It supports more sustainable farming practices while offering the same comfort and durability as conventional cotton.

Perfluorinated compounds (PFCs) are often used for waterproofing but are practically non-biodegradable. Mammut is committed to replacing non-biodegradable fabric treatments with more sustainable high-performance alternatives.

This product contains recycled materials with uncompromised performance and functionality. Choosing recycled materials reduces the use of virgin resources and helps promote a more circular economy.

terracare® leather is produced using environmentally responsible tanning processes, reduced water and energy consumption, and full traceability. It meets high standards for quality, durability, and sustainability, making it suitable for demanding outdoor applications.

## LOGO PLACEMENT

Our Corporate Collection offers a variety of options to customize products with your company logo. Thanks to the tonal Mammut branding, your logo remains clearly visible while maintaining a premium look. Choose from different placement options and application techniques such as high-quality printing or embroidery. For embellishment, we collaborate with trusted printing partners to ensure excellent results. Whether used as employee apparel, teamwear, or a branded gift, customized Mammut products help create a strong, unified brand identity while offering long-lasting quality and visibility.

Placement options and size of the print or embroidery may vary depending on product type and size.

## CUSTOMIZATION

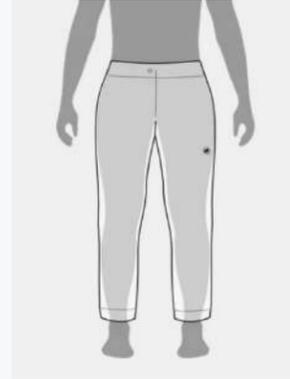

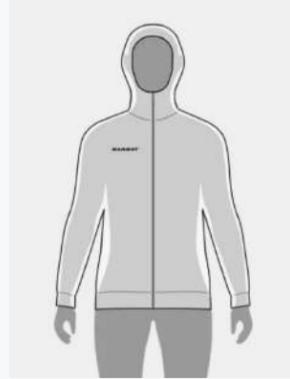

For stock items, embellishment lead times are typically around 1-2 weeks, depending on product availability, order volume, embellishment technique, and artwork complexity. For stock items, we collaborate with trusted printing partners to ensure high-quality customization. For larger quantities, branding can also be integrated directly during production, subject to minimum order quantities (MOQs).

Pricing varies depending on the selected product, order volume, and type of embellishment, and is confirmed after reviewing the artwork and production feasibility. For detailed consultation, technical guidance, and a tailored quotation, please contact your local sales representative.

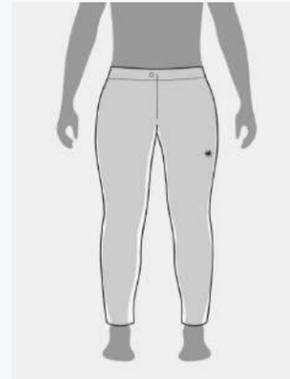

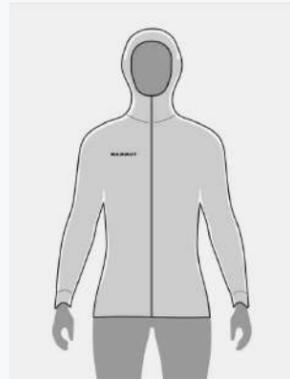

## FITS AND SIZING

### Regular Fit

This versatile fit creates a classic silhouette that balances form and freedom of movement. Perfect for layering, it provides comfort without being too tight or too loose.

### Athletic Fit

Close to the body but not skin-tight, our Athletic styles fit snugly, allowing the materials to perform to their full potential.

## TERMS & CONDITIONS

### MINIMUM ORDER SIZE

Our minimum order quantity is 20 units for printed and embroidered items.

### LOGO

Please provide your logo in a high-resolution vector format, such as .svg, .eps, .ai, .png, or .pdf.

Mammut reserves the right to decline any request that does not align with our brand values and company standards.

### SAMPLES

Samples may be provided upon request. Sample items require advance payment via bank transfer. The amount will be fully refunded upon return. Samples must be returned unused, with all original tags attached, within 30 days of receipt to qualify for a refund.

### ORDERING PROCESS

Please contact us at [corporate.business@mammut.com](mailto:corporate.business@mammut.com) or reach out to your local Mammut Corporate Sales representative for assistance with the customer application process.

Returning customers may place orders through our digital ordering tool. All orders are subject to acceptance and product availability.

### PRODUCT SELECTION AVAILABILITY

The products featured in this catalog are available for bulk purchase. For detailed information regarding availability, customization options, and lead times, please contact our Corporate Sales team.

### PAYMENTS, REFUNDS & EXCHANGES

Accepted payment methods: bank transfer

All Mammut Corporate & Group Sales purchases require 100% prepayment prior to delivery.

Orders placed through our Corporate & Group Sales channel are considered final sales.

Our experienced sales team will work closely with you to ensure the selected products fully meet your requirements. As these are customized or corporate-specific orders, returns or exchanges are not possible.

Credit terms may be available for approved applicants. Please contact our Corporate Sales team or your local Mammut Corporate Sales representative to request a credit application.

### ELIGIBILITY

For each order, we require disclosure of the organization whose name or branding will appear on the Corporate Collection product as well as clarification on how the product will be used. Mammut reserves the right to decline orders that do not meet brand standards.

### CONTACT US

Mammut is globally recognized for high-performance outdoor apparel and equipment. Partnering with Mammut reflects a commitment to premium quality, technical functionality, and long-term reliability.

For corporate enquiries, please contact [corporate.business@mammut.com](mailto:corporate.business@mammut.com)
