

VALOUR

Junior Trader

Place of work: 6300 Zug, Switzerland

Hours: Full-time

About Valour

Valour Structured Products Inc. is an issuer of exchange-listed financial products that enable retail and institutional investors to access investment in disruptive innovations, such as digital assets, in a simple and secure way. Last December, we launched our first product, Bitcoin Zero, on the Nordic Growth Market (NGM), and this year we will bring further innovative exchange-traded products to investors across Europe. Established in 2019 and based in Zug, Switzerland, Valour is backed by leading entrepreneurs and investors in the fintech space. We're working to provide investors with access to innovative assets - and we're looking for great people to help us help others to invest in the future.

Summary of role

We are looking for a highly motivated professional to join our fast-growing, dynamic fintech company in Zug, Switzerland. As a Junior Trader, we'll teach you how to use our proprietary technology while implementing sophisticated hedging and market making techniques, so you can make an impact from the bottom line of the firm, providing vital support to our senior traders and our customers. You will be part of our team developing new financial products as well as defining and optimising our operational infrastructure. This is a unique opportunity to make a real contribution in an exciting, entrepreneurial firm at the forefront of financial services innovation.

Key responsibilities

- Support the senior traders with Hedging, Market making and Trading
- Creating, maintaining and updating trading and analysis tools and reports
- Performing ad hoc analysis/research on the cryptocurrency market
- Support senior traders with the company's settlement and clearing process
- Maintenance of records and accounts, ensuring credit management and financial controls
- Support of regulatory and organizational compliance, and audits
- Supporting the trading team to ensure traded risk is properly reflected in position and scenario analyses
- Dealing with day-to-day administrative issues in support of trading activities and liaison with trading operations

VALOUR

Qualifications

- 2-4 years of relevant trading, markets, or investment banking experience
- Degree in a quantitative field such as engineering, computer science, physics, mathematics or finance
- Strong analytical skills and expertise in financial systems and reporting
- Highly computer literate and technically skilled in Excel; programming knowledge a benefit
- Demonstrated consistent success in:
 - working closely within a team environment
 - working in an unstructured and fast-paced environment
 - highly driven and self-starting
 - handling high pressure situations
- Strong interest in asset markets in general, current trends and evolutions in the industry, and cryptocurrencies in particular
- Entrepreneurial and creative in your approach to problem solving
- Excellent attention to detail

And you can:

- Work independently, take initiative and be proactive
- Run multiple projects simultaneously
- Be collaborative and strategic
- Maintain a growth mindset and ownership mentality

To Apply

Please email with CV and a short cover letter explaining why you're the best candidate for this role to hello@valour.com with subject line: Junior Trader.

Please note that at this time we can only consider candidates with Swiss work permits.
