

VALOUR

Senior C++ Trading System Developer

Place of work: 6300 Zug, Switzerland // Remote

Hours: Full-time

Summary of role

We are looking for a highly motivated C++ developer to join our fast-growing, dynamic fintech company in Zug, Switzerland, to work on our cutting edge, low-latency trading platform. You will play an important role in the development of our greenfield market making system, market data feeds, order handlers and other support facilities.

Key responsibilities

- Develop and maintain market connections.
- Develop tools and applications to support the trading desk.
- Work closely with management, the trading desk & business operations.
- Maintain and continuously improve existing software.
- Swiftly remedy any production incidents.
- Collaborate effectively with colleagues to solve complex problems.
- Design, develop and manage solutions to meet new business requirements.

Qualifications

- At least 10 years of professional C++ experience
- Experience working with distributed systems preferably real-time
- Well-versed in the fundamentals of software engineering
- Experience with cross platform development, Linux and Windows
- Experience working on trading systems and good understanding of financial markets and cryptocurrencies is an advantage

We will need you to:

- Take initiative and be proactive, with a growth mindset
- Run multiple projects simultaneously
- Deliver reliable results and respect deadlines, even working under pressure
- Be focused, result-oriented and collaborative

VALOUR

About Valour

Valour Inc. is an issuer of exchange-listed financial products (ETPs) that enable retail and institutional investors to access investment in digital assets in a simple and secure way. With four products listed on the Nordic Growth Market (NGM) stock exchange, we are continuing our growth trajectory and bringing new innovative ETPs to investors across Europe. We're working to provide investors with access to innovative assets - and we're looking for great people to help us help others to invest in the future. Established in 2019 and with offices in Zug, Switzerland, Valour is a wholly owned subsidiary of Defi Technologies, a public company listed in Toronto, Canada (NEO:DEFI).

To Apply
