

For these activities, you will need a pencil to draw and red, yellow and blue colouring pencils to colour in. You could also use a separate piece of paper to draw on.

## Daddy Pig's colour quiz

Mix it up! Use your red, yellow and blue pencils to colour in the correct boxes below.

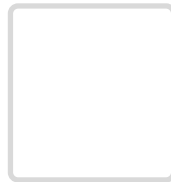

Mixing **blue** and **red** together makes . . .

Mixing **yellow** and **blue** together makes . . .

Mixing **red** and **yellow** together makes . . .

**True** or **false**? Circle the correct answers.

There are three primary colours.

true / false

Orange is a primary colour.

true / false

Secondary colours are made by mixing two primary colours.

true / false

You could use your colour-mixing skills to draw and colour in a picture on a separate piece of paper. Include a range of colours to make your picture super colourful!
