Born to be a star

Powerful. Muscular. Agile. For maximum riding pleasure.

The Diavel 1260 combines the performance of a maxi-naked with the ergonomics of a muscle cruiser. Its modern design reinterprets the Diavel and perfectly integrates the Euro 5-homologated, 162 HP* Testastretta DVT 1262 engine, the beating heart of the Diavel 1260.

The Testastretta DVT delivers 162 HP* at 9500 rpm with a flat and full-bodied torque curve, for blistering acceleration as well as that low-speed consistency ideal for touring or daily use.

Standing out for its distinctive 240 mm rear tyre, the chassis ensures surprising handling and lean angles, combined with an excellent level of comfort for both rider and passenger.

Lights on me

New for 2022 in the Diavel's family is the "Black and Steel", its refined and asymmetric graphics pairing polished grey and matte black with touches of sporty yellow.

The Diavel 1260 S "Black and Steel" is inspired by the concept of the Diavel "Materico", presented during the 2019 "Beautiful Boldness/Visionary Design" event at Milano Design Week before being exhibited at MOARD (Motorcycle Art & Design), the dedicated motorcycle design show.

Every rider is a star aboard the Diavel 1260 S "Black and Steel".

Contemporary style

Synonymous with style, innovation, and performance, the Diavel 1260 has won prestigious international prizes such as the “Red Dot Award” and the “Good Design Award”.

The muscular lines and the unmistakable front section give the Diavel 1260 S unique character and personality, while the large air vents and trellis frame skirt the engine.

The agile, sleek tail section stands out for the unmistakable 240 mm rear tyre. Öhlins suspension enriches the design and enhances the performance and riding comfort.

Innovation and performance

The beating heart of the unconventional and unmistakable Diavel 1260 soul is the 1262 cc Testastretta DVT engine that delivers 162 HP* at 9500 rpm with a flat and full-bodied torque curve, for blistering acceleration as well as that low-speed consistency ideal for touring or daily use.

Advanced electronics ensure maximum riding pleasure in all conditions, while engine character and response can be customised at any time with the Ride by Wire control associated with the three Power Modes.

Active safety is always at a max thanks to Ducati Wheelie Control Evo and the Ducati Safety Pack, which includes Cornering ABS Evo and Ducati Traction Control Evo.

The Ducati Quick Shift, as standard on the S version, allows for ultra-rapid up and downshifting.

The full LED headlight with DRL system** ensures the Diavel 1260 S is recognisable at first glance.

The Diavel 1260 dash comprises a 3.5" colour TFT display with four different viewing modes - Default, Track, Full and City - paired with the Sport, Touring and Urban Riding Modes. The light module is separate, located above and below the handlebar. The handlebar buttons are back-lit.

* Euro 5 version

** Please check with your dealer feature availability.

Enhance your riding pleasure

The Diavel 1260 marries personality, sports attitude, and comfort. The trellis frame offers lightness and stiffness, while the adjustable 50 mm fork ensures comfort and precision during sports riding.

The combination of high handlebar, low seat and central footpegs makes for a low centre of gravity and a comfortable position, for riding ease in all conditions. The generous seat ensures a comfortable ride, even for two.

On the S version, special components and refined details highlight the unique style of the Diavel 1260. The design is enhanced with the dedicated seat and exclusive machined wheels.

Brembo M50 brake callipers, fully adjustable Öhlins suspension with its unmistakable gold finish, and the Ducati Quick Shift up & down round out the standard equipment on the Diavel 1260 S, underlining its sports nature.

Touring soul

The Diavel 1260 is once again ready to amaze as it reveals its touring soul, for dynamism and comfort on even the longest trips. By accessorising the Diavel 1260 with the Touring Pack, or rather semi-rigid side panniers, a passenger backrest and heated hand grips, you can enjoy the bike's all-round touring spirit. Get ready for a new way of travel, as bold as your Diavel. The adventure you never imagined starts now.

Servicing and maintenance

Safety as standard

The continuous work that Ducati carries out in terms of design, research and development serves to ensure cutting edge bikes characterised by maximum active safety levels. A commitment that involves the definition of increasingly advanced technological systems to increase the rider's level of control, such as the Ducati Safety Pack (DSP) that, for Diavel 1260, includes Cornering ABS Evo and Ducati Traction Control Evo (DTC).

More value to your passion

With Ever Red, the quality and reliability of the Ducati brand remain your inseparable travelling companions over time. Ever Red is the exclusive Ducati warranty extension programme. With its activation you can continue to feel protected for 12 or 24 months beyond the expiration of the Ducati Warranty (24 months). Ever Red includes roadside assistance for the entire coverage period and no mileage limits. In this way you can ride for all the kilometres you want, even abroad, enjoying your Ducati without any worries.

To find out if the Ever Red extension is available in your country and for further information contact your Ducati dealer or visit ducati.com.

Endless excitement

In designing each bike, Ducati constantly strives to ensure maximum reliability while reducing service costs. A commitment that has seen the intervals for the main Desmo Service, in which valve clearance is checked and adjusted if necessary, to be extended to 30,000 km (18,000 miles) for the Diavel 1260.

Even the simplest of checks, such as the Oil Service, are extended to 15,000 km (9,000 miles) or 12 months. A considerable interval for such high performance engines, which only confirms the high quality standards adopted in terms of material selection and R&D processes. Ducati continuously invests in the technical training of its dealers.

The specific skills offered by the official Ducati Service network ensure that all those operations needed to keep every Ducati in perfect condition are thoroughly executed, while advanced equipment such as the Ducati Diagnosis System allows the software on each Ducati to be updated with the latest releases, ensuring that the electronics continue to perform at the maximum level.

Always by your side

One of Ducati's main goals is to offer every Ducatista the chance to enjoy unlimited and safe travel all over the world. To achieve this aim, Ducati offers a "fast delivery" original spares service, with delivery in 24/48 hours across 85% of the areas in which it operates. With a distribution network that covers more than 91 countries, thanks to 738 official Dealers and Service Points*, choosing a Ducati means you can travel worry free and in total freedom, wherever the road may take you, and count on support from our extensive Dealer network that ensures Ducati quality and professionalism is always close at hand.

ACCESSORIES

Configure the Ducati of your dreams.

Numerous accessories have been created to enhance the pleasure of riding, and highlight the sports attitude, elegance, and comfort of the Diavel 1260.

To express the various sides to its personality, Ducati has created three packages - Sport, Touring and Urban. Machined aluminium and carbon are combined in a Sport package that exalts the powerful and muscular character of the Diavel 1260.

For those who want to travel, alone or in company, the Touring package is the perfect complement, highlighting the bike's cruiser qualities. The Urban package stands out for its bold, refined design with machined aluminium details that highlight a unique, irreverent elegance.

Configure

Choose your ideal Diavel 1260 and have fun configuring it to suit your riding style! Share your Diavel 1260 with friends or send it to your Ducati dealer who will contact you for an online consultation to discuss the current offers that best suit your needs.

Save your configuration to return to it at any time.

Calculate your payment

Ducati Financial Services offers favourable solutions for the financing of every model in the Ducati range. Personalise your financing and calculate the monthly instalments. You can then contact your dealer and discuss the best way to see your dream come true!

ducati.com

Riding a motorcycle is the most exciting way to enjoy the road, and offering the utmost safety to the motorcyclist is Ducati's commitment. Ducati bikes are increasingly easy to handle, reliable and better equipped to guarantee maximum safety and enhance riding pleasure. Technical clothing is made with more and more advanced materials for adequate protection and increased visibility. The safety of motorcyclists is Ducati's commitment. For more information visit the safety section of the Ducati site (www.ducati.com).

Warning: The photos and technical information in this catalogue may refer to prototypes subject to modifications during production and are purely for illustration and reference purposes, and are therefore not binding on Ducati Motor Holding S.p.A. Sole Shareholder Company - Company subject to the direction and coordination of AUDI AG ("Ducati"). Ducati cannot be held responsible for any print and/or translation errors. This catalogue is transnational and therefore some products may not be available and/or their features may vary in accordance with local laws. Not all colours and versions are available in each country. Ducati reserves the right to make changes and improvements to any product without obligation of prior notice or to make such changes to products already sold. Further characteristics of the products are contained in the pertinent owner's manuals. The products represented are not definitive versions and are therefore subject to significant changes at Ducati's discretion without prior notice. The photographs published in this catalogue show only professional riders under controlled street conditions. Do not attempt to imitate such riding behaviour as it could be dangerous for you or other people on the road.
