## SPW Global (Ex UK) Equity Fund Q Inc

A sub fund of  
SPW Managed ICVC

ISIN: GBO0BSBJ4N23

managed by  
Scottish Widows Schroder Personal Wealth (ACD) Limited

## Objectives and Investment Policy

### Investment Objective

The Fund aims to provide capital growth and income over five to seven years in excess of the MSCI ACWI ex UK GBP (Total Return) Index (after fees have been deducted) by investing in the equities of companies worldwide (with the exception of the United Kingdom).

### Investment Policy

The Fund is actively managed and invests at least 80% of its assets in equity and equity related securities of companies worldwide (including those in emerging markets but excluding the United Kingdom). The Fund may also invest up to 20% in other transferable securities, units in collective investment schemes (up to a maximum of 10% of its assets and including exchange traded funds and other schemes managed and operated by the ACD, the Investment Adviser or their associates), money market instruments, warrants, cash, near cash and deposits. The Fund may make limited use of derivatives with the aim of reducing risk and

managing the Fund more efficiently (often referred to as 'efficient portfolio management').

### Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI ACWI ex UK GBP (Total Return) Index. The Investment Adviser invests on a discretionary basis and is not limited to investing in accordance with the composition of the benchmark. The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

### Dealing Frequency

You may redeem your investment upon demand. The Fund deals daily.

## Risk and reward profile

The Risk and Reward Indicator chart demonstrates where the fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the fund. The shaded area in the table below shows the fund's ranking on the Risk and Reward Indicator.

- The fund is ranked at 6 because, based on simulated data, it would have experienced medium to high levels of volatility over the past five years. The value of your investment and any income from it is not guaranteed and can go up and down depending on investment performance. **Specific investment risks for the fund are:**
- Bond risk:** A bond's price may fall if the issuer's credit rating falls. Prices may also fall if interest rates rise (and rise when interest rates fall). Issuers may fail to make income payments and/or repay capital.

- Currency risk:** The fund can be exposed to different currencies. Exchange rate changes might cause the value of overseas investments and any income from them to go up and down.
- Equity/share risk:** Company shares can offer higher long-term growth potential than bonds but values can fluctuate considerably. There's a greater risk you might not get back all of your money.
- Emerging markets risk:** These markets carry greater political, legal, counterparty & operational risk.
- High yield bond risk:** These bonds generally carry greater market, credit and liquidity risk.
- Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.
- Performance risk:** Investment objectives express an intended result but there is no guarantee that such a result will be achieved.
- Derivatives risk – EPM & Investment Purposes:** Derivatives may be used to manage the portfolio efficiently and to achieve investment gains. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the Fund.
- Counterparty risk:** Other companies (known as counterparties) can provide derivative investments. If a counterparty fails, this could impact the fund's value. The fund may take a level of collateral from a counterparty, which may be used if the counterparty fails.

Further details of the risks relating to investment in this fund can be found in the Prospectus, which is available on request or at our website [www.spw.com/our-services/fund-info](http://www.spw.com/our-services/fund-info).

## Charges

The charges you pay are used to pay the costs of running the fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest.	
Entry charge	<b>None</b>
Exit charge	<b>None</b>

This is the maximum that might be taken out of your money before it is invested and before proceeds of your investment are paid out.

Charges taken from the fund over a year	
Ongoing charges	<b>0.77%</b>
Charges taken from the fund under certain specific conditions	
Performance fee	<b>None</b>

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

The annual report for each financial year will include detail on the exact charges made.

There is no charge to switch into this fund. You may incur an Exit Charge from the fund you are switching from. Please refer to the KIID document for that fund.

For more information about charges, please refer to the Prospectus, which is available at [www.spw.com/our-services/fund-info](http://www.spw.com/our-services/fund-info).
