

clinell®

Making surfaces safer

Effective against the
COVID-19
virus in
30 seconds

Protect patients, colleagues and communities

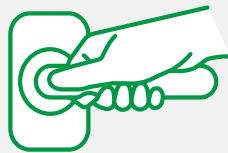

Clinell Universal Wipes are proven effective against 99.99% of bacteria and viruses.

Where to clean:

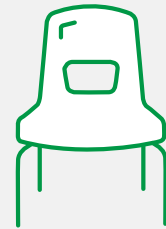

A frequently touched surface is a surface that is touched multiple times each day or touched by different people during the day. **Some examples of frequently touched surfaces that should be cleaned with Clinell Universal Wipes are:**

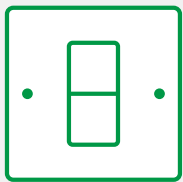

Desks

Door handles

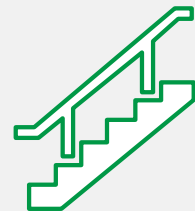

Chairs/armrests

Light switches

Communal eating areas

Handrails and lift buttons

How to clean effectively:

Wipe in an 'S' shaped pattern

Work from top to bottom

Wipe from clean to dirty

Leave to air dry

One wipe, one surface

Use biocides safely. Always read the label and product information before use.
