

SPEAKER BIOGRAPHY

Craig Sander

at Visier

visier

Craig lives to inform through captivating stories. Craig has developed, implemented and evangelized Network monitoring and Business Intelligence solutions for major software firms including; FiServe, Business Objects, SAP and Infor. He is excited to be back to Solution Consulting at Visier to engage in his passion for demonstrating through stories.

While working at Infor as a Client Advisor, Craig supported customers the likes of Cleveland Clinic and Common Spirit to regional customers like Thedacare and Genesis Health on their digital strategies. Prior to Infor, Craig was a Solution Director at SAP for their Data and Analytics platform, Responsible for SAP HANA, Business Analytics (BI) and Enterprise Information Management (EIM) solution sales support to Public Sector customers across Canada.

Outside of work Craig loves to Ski, Snowboard in the winter and spend time on the water in the summer.
