

DataArt Joins the NVIDIA Partner Network (NPN)

Membership positions DataArt to deliver NVIDIA powered AI solutions to enterprise clients across European markets.

London, UK — May 14, 2026 — DataArt, a global software engineering firm that delivers breakthrough data, analytics, and AI platforms, today announced it has joined the NVIDIA Partner Network (NPN) as a Solution Advisor Partner, supporting clients across the UK and Europe. The membership recognizes DataArt's technical depth in AI engineering, data platform development, and enterprise AI adoption, and formalizes the firm's access to NVIDIA's ecosystem of tools, frameworks, and go to market resources.

The NVIDIA Partner Network brings together firms distinguished by their expertise in AI model development, data engineering, and industry specific application of NVIDIA technologies. DataArt's inclusion reflects its growing practice in AI accelerated engineering and generative AI, spanning financial services, healthcare, retail, travel, and media and entertainment — industries where the firm has delivered production AI systems for global enterprise clients.

Yuri Gubin, CTO at DataArt, said:

"Joining the NVIDIA Partner Network is an important step in how we bring AI infrastructure capabilities to our clients in Europe. NVIDIA's accelerated computing stack is increasingly central to how enterprises deploy AI at scale. This partnership lets us work more closely within that ecosystem and deliver more directly on what our clients need."

The NPN membership extends DataArt's network of strategic technology alliances, which includes AWS, Microsoft, Google Cloud,

Snowflake, Databricks, and Salesforce, and strengthens the firm's position to address rising enterprise demand for AI infrastructure and accelerated computing across European markets.

About Da Vinci Capital

Da Vinci Capital Management Ltd. is a leading emerging markets private equity manager that builds world class portfolio companies by honing their business and financial strategy; fortifying corporate governance and environmental and social policies; and advising on mergers and acquisitions and capital markets transactions.

Backed by 57 Stars, Adams Street Partners, the European Bank for Reconstruction and Development and other major institutional investors, Da Vinci Capital has over \$500 million of assets under management. Major exits include B2B-Center, EPAM Systems (NYSE: EPAM), and LoopMe (partially acquired by Mayfair Capital Partners). Da Vinci Capital's other portfolio investments include custom software developer DataArt and Dubai based brokerage IStar Capital.

About DataArt

DataArt is a global data and AI transformation partner delivering tech-enabled business outcomes for enterprises operating in complex, high-stakes environments where predictability, speed of execution, and risk management are critical. Structured around five industry practices, including financial services, healthcare and life sciences, travel, media and entertainment, and retail, DataArt builds long-term partnerships, with 95% client retention and many relationships spanning more than a decade.

Central to DataArt's delivery is Artisyn, its AI-enabled operating model. Artisyn embeds AI agents, reusable foundations, and governance frameworks across the full software development lifecycle, combining accelerated delivery with structured governance and hands-on oversight by DataArt's engineering teams, including in regulated industries such as financial services and healthcare. It has delivered up to 70% faster prototyping, a 30% improvement in development efficiency, and 90%+ accuracy in defined AI use cases.

Founded in New York City in 1997, DataArt has grown to 6,000+ engineers across 40+ locations in the US, the UK, Europe, Latin America, India, and the Middle East. Clients include Priceline, Ocado Technology, Legal & General, and Flutter Entertainment.
