Consultant Digital Experience Design,
Focus Accessibility
Potsdam/Berlin

Do you want to design the working world of the future? Are you itching to take digital products and processes to the next level in all kinds of industries? Look forward to a motivated team and an exciting working environment at **D-LABS**!

──── WHO WE ARE MISSING, IS YOU!

YOUR PROFILE

> You specialize in accessible design via professional training or a degree in interaction design, UX design or software development.
> You are passionate about user-centered design of digital products and services and inspire others with your ideas.
> You already have some experience testing the accessibility of digital solutions and perhaps even worked on this topic in the public sector.
> You speak German well and are well versed in German digital accessibility guidelines. Ideally, you have a certification, e.g. as a Web Accessibility Specialist (WAS).
> You are a team player and tackle challenges in agile projects with know-how and creativity.

YOUR TASKS

> You design digital products and services accessible to all and visualize accessible solutions in prototypes.

Are you ready?
