

TACenergy®

FUEL YOUR FUTURE

AT TACENERGY WE MANAGE AN
INCREDIBLE AMOUNT OF FUEL.
JUST HOW MUCH YOU ASK?

**AN ANNUALIZED FUEL
VOLUME OF OVER
2.7 BILLION GALLONS...**

... THAT'S A LOT OF FUEL. SO HOW DO WE DO IT?

BULK TRADING

Headquartered in the heart of the Dallas financial district and with a group based in Los Angeles that is focused on West Coast trading, the TACenergy trading desk secures supply across the U.S. via an expansive network of terminals and bulk product shipments via U.S. product pipeline systems. The TACenergy trading desk continually monitors the interaction of financial, equity and commodity markets from multiple live feeds, and is proactive in ensuring supply at the lowest possible cost for our customer base.

FLEXIBLE

PRICING OPTIONS

TACenergy is fully equipped to accommodate any type of pricing to fit your operation, including OPIS, Platts/Argus and NYMEX indices. Additionally, we can provide fixed price, max price, caps or any combination of price volatility protection through our Price Assurance program.

DON'T JUST BUY FUEL,

FUEL YOUR FUTURE

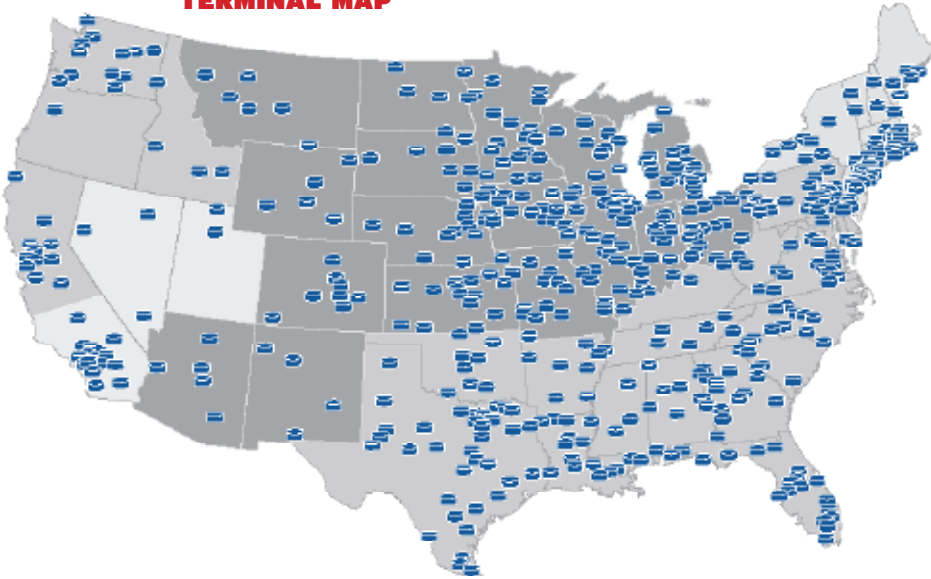

WITH THE BACKING OF OUR TALENTED
TEAM OF CUSTOMER SERVICE, TRADING, LOGISTICS,
INFORMATION TECHNOLOGY AND PETROLEUM
INDUSTRY PROFESSIONALS.

TACenergy

ONE OF THE LARGEST INDEPENDENT OIL MARKETERS IN THE NATION.

In business for almost 60 years, TACenergy has grown from its origins of a single man and a truck to an annualized fuel volume of over 2.7 billion gallons. That's 10 figures worth of fuel!

TERMINAL MAP

OUR DIFFERENCE

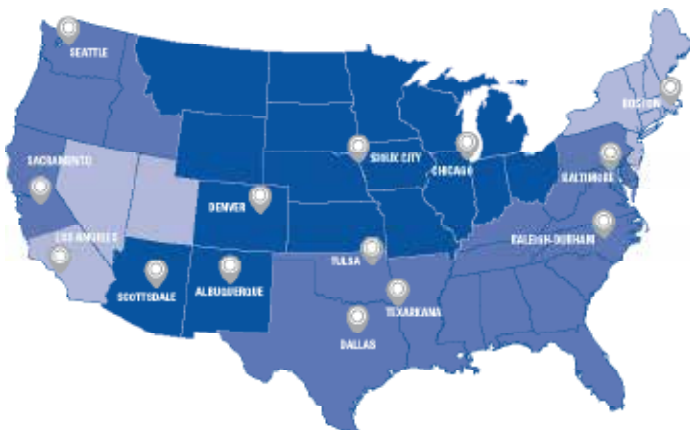

Simply relying on the lowest rack price available at the moment of purchase is a huge risk to both your supply chain and overall fuel costs. At TACenergy, we take the purchasing muscle and flexibility of our national terminal network and combine it with the most efficient logistical and information technology tools. The result is a fuel supply chain that is optimized for every customer's needs in ways big oil is simply not equipped to provide.

FUELS & SUPPORT PRODUCTS

Of course, a complete range of branded and unbranded refined petroleum fuels including gasoline, diesel, renewable diesel and aviation fuels are available, plus other renewable fuels like biodiesel and ethanol, as well as support products such as DEF.

REGIONAL OFFICES

From the West Coast to the East Coast, TACenergy has you covered with regional offices across the country.

SUPPLY ON YOUR TERMS

With one of the largest terminal networks in the industry, the TACenergy Supply and Logistics call center adjusts the optimal combination of pull points, supply, carriers and price. This is achieved through a unique combination of one of the most advanced data management systems coordinated and operated by the most capable personnel in the industry.

Our carrier relationships and costs are continually monitored and competitively renegotiated to ensure optimum liability coverage and performance standards are met.

The net results of these services for our customers are a reliable fuel supply, consistently on time, at the lowest possible final delivered cost.

WE MAKE IT **EASIER**

With one of the most advanced collections of web-based tools available, managing your fuel supply and support data is easier with TACenergy. We can customize a suite of web tools unique to your supply and back office support needs; both historical and in real time, including:

- FUEL QUOTING** 
- CONSUMPTION & SPEND HISTORY** 
- CUSTOMER A/R DATA** 
- CUSTOMIZED DETAILED OR SUMMARY INVOICES** 
- "RICH REPORTING" USING YOUR TERMINOLOGY** 
- FLEXIBLE INVOICE DOWNLOADS** 
- REPORTING AD-HOC QUERIES** 

INVENTORY INTELLIGENCE

Inventory Intelligence with TACenergy monitors tank inventory, ties the data into online tools and trading market intelligence, accurately anticipates demand and automatically dispatches orders.

We advance or delay loads where operationally possible to minimize fuel costs by constantly watching the market and placing your order when trends are most favorable, saving you money.

With our multiple transportation options, we are able to coordinate and manage delivery on your criteria, (everything from keep-full to just-in-time), ship from multiple locations and utilize numerous carrier relationships.

ACCURACY DELIVERS EFFICIENCIES

To minimize reprocessing and improve efficiencies in the accounting functions, therefore saving time and efforts, TACenergy delivers greater than a 98% billing accuracy rate. With a fail-safe and double check process, we are able to give customers the confidence they are paying for the orders made and delivered.

HIGHLY TRAINED LOGISTICS PROFESSIONALS ARE ALWAYS AVAILABLE IN OUR 24/7 SUPPLY AND LOGISTICS CALL CENTER IN DALLAS, TX.
