

This is a simple, fun craft that will get you exploring the letter E. The chalky egg craft develops a young one's understanding of shapes and colours and improves fine motor skills in a creative way. There are endless design possibilities for this craft so start cutting, taping and colouring to create your own chalky egg.

## Materials

- Egg template
- Chalk
- Tape
- A3 craft paper
- Child friendly scissors
- Glue
- Water

## Helpful Hints

A parent or carer should always be around during craft time. Keep safe and have fun.

Leave a piece of tape hanging off the edge of the paper to make it easier to peel the tape off.

## Extend/Enrich

Look around the space you're in, can you spot anything beginning with E?

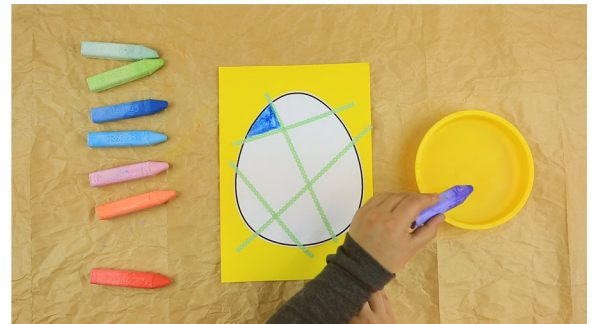

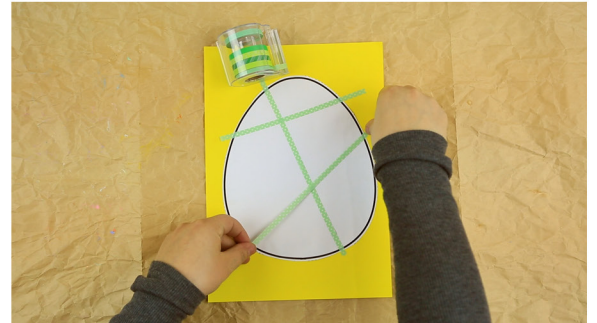

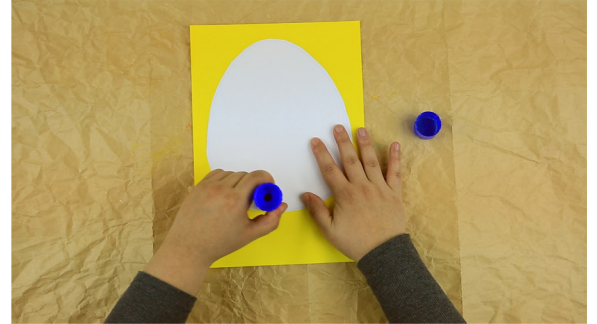

For additional activities try the **Pom-Pom Egg** craft available from the Reading Eggs Junior website.

# How to make your chalky Egg!

1. Carefully cut out the egg shape from the template.
2. Glue the egg to the middle of the craft paper and let the glue dry.
3. Use the tape to create a cool design over the egg.
4. Wet the chalk by dipping the chalk into water and colour in each section of the egg design.
5. Let the chalky egg dry completely.
6. Carefully peel off the tape to reveal your chalky egg design.
