Features a low-slung design.

Sustainably sourced wood.

Includes nylon furniture glides.

Hand-crafted in Vietnam.

FINISH OPTIONS

Available in white oak finish.

DIMENSIONS

33"l x 33"w x 30"h

MATERIALS + CARE

Seat made of vegetable-tanned leather in a chestnut hue. Its frame is crafted of solid hardwood in a white oak finish.

Use a clean damp cloth with mild dish soap and warm water to wipe the wood clean

Long periods of direct sun can darken portions of the leather faster than indirect natural light. Maintenance is only required when unusual circumstances occur, such as large water marks, scratches and ink marks. Light dirt or scuffs can be cleaned with a soft dry brush or towel.

Gently wipe down leather with a microfiber towel, a small amount of water and a light amount of mild soap. Do not drench the leather, as too much water can damage the finish.
