

# PRAYER FOR DIFFERENT PROFESSIONS

## DURING COVID-19

For protection and stamina for the **healthcare** community as they care for the sick.

For clarity, wisdom and unity for **government leaders** at all levels across the world.

For peace and provision for industries most affected; **transportation & travel, leisure & hospitality, temporary help services, oil drilling & extraction, retail, manufacturing, construction,** and **education.**

For wisdom for **business leaders** as many shift the way they do things; some are making hard decisions about job cuts, and some are forced to scale quickly.

For **financial professionals** to make wise decisions and to compassionately engage with their clients who scared about their financial futures

For provision and stamina for **nonprofit leaders** who serve some of the most vulnerable members of our community.

For **educators** as they seek to continue to develop students, while also navigating how to best care for other physical and emotional needs of students.

The **media** as they choose how to keep us informed through accurate information.

For **parents** as the navigate adding more kids or adults to their home office.
