Asset Mix

The Total Fund reflects the aggregate of all client accounts.

The Balanced Fund is a composite of client accounts that invest in the three main asset class categories of Money Market & Fixed Income, Public Equities & Absolute Return, and Private Markets. These clients mandate AIMCo to combine asset allocation and active investment management to seek higher returns. Diversification plays an important role in maintaining a level of portfolio risk that is appropriate to the client as these funds can invest in a wider set of investment opportunities.

*Total Fund calculations do not include \$4.0 billion of assets that do not meet the required conditions for inclusion in AIMCo's excess returns as at June 30, 2026.

Synopsis

- » AIMCo surpassed \$200 billion in assets under management, strengthening its scale and positioning the organization to access a broader range of investment opportunities for clients.
- » Investors navigated a first half marked by the conflict in the middle east, U.S. trade policy uncertainty, and evolving inflation expectations.
- » Public Equities was the strongest contributor to performance, benefiting from resilient corporate earnings and continued strength in AI-related sectors and global equity markets.
- » Positive contributions from Public Fixed Income, Private Mortgages, Private Debt & Loan and Infrastructure supported overall results.
- » Performance in certain private market portfolios, particularly Private Equity, moderated overall returns amid lower transaction activity and valuation pressure in software-related investments.
- » AIMCo remains focused on delivering strong long-term outcomes for clients through diversification and disciplined investment management.
