- ▶ ACTIVATED HYDROGEN PEROXIDE (0.5%)
- ▶ PDI SUPER SANI-CLOTH (55% ISOPROPYL ALCOHOL)

INTRODUCING THE FIRST SCREEN PROTECTOR SOLUTION DESIGNED SPECIFICALLY FOR ENTERPRISE.

The Workflow Industrial Grade Screen Protector is infused with non-Newtonian fluids, commonly used in personal protective equipment, which provides the highest shock resistance for the most demanding environments. In addition, the outer surface is plated with oleophobic materials, which offers superior and longer lasting resistance to adhesion of oils and fingerprints than traditional coating methods.
