

FEATURES

IMPACT PROTECTION

Designed to withstand the rigors of daily use in almost any environment. Meets the military standard MIL-STD 810G of 12-foot (3.6 meters).

UNINTERRUPTED PERFORMANCE

The quick to change battery pack (3000mAh) provides a continuous charge to the iPhone for 24/7 operations. The optional extended battery pack (5000mAh) keeps your device running longer without needing to swap the battery and is perfect for devices running processor intensive applications or when operating the device outdoors where brighter displays are required.

COMPACT RUGGED DESIGN

The lightweight and slim rugged design keeps the device both comfortable to carry on the move and easy to operate. It includes an adjustable and removable hand strap for added security and improved grip.

IOS POWERED

Integrate your solutions seamlessly to an iOS-based ecosystem or modernize your systems to the power of Apple’s iOS platforms.

Introducing the UAG Rugged Workflow Case for the iPhone 12. With a built-in hot-swappable battery pack and charging accessories, it provides uninterrupted 24/7 performance out of your iPhone device.

The case facilitates precise data and barcode capture using the iPhone’s powerful built-in camera. Maximize efficiency and speed in the most demanding environments. Ideal for warehousing, baggage handling, inventory management, transportation & logistics, manufacturing, or any application that requires your device to operate around the clock. Built with durable premium materials, this fully ruggedized case is designed to be used in almost any environment.
