

SUSTAINABILITY BY DESIGN

2021 marked the second year of a global pandemic where extraordinary uncertainty and difficulty continued for much of our world and our industry. Resiliency and adaptability were essential for employees and partners as travel rebounded and DFW Airport remained one of the busiest airports in the world.

To support business recovery while preparing for the future, DFW Airport introduced a new strategic plan that built on past successes and prioritized important initiatives. While the Airport continues to evolve, our commitment to our customers and community remains steadfast as we strive to deliver a world-class airport with outstanding facilities, innovative technology, and improved infrastructure to support operations.
