Concept Description:

This location will have a fun and exciting retail candy experience that offers a wide variety of individual and bulk candy with local and international items that appeal to both children and adults.

The proposed concept should not compete with another existing concept within 3 gates on either side of proposed location. (Refer to **Attachment 4 Package Directory and Maps**). Provide sufficient justification of how the proposed concept is the best fit for this location.

This location is not part of any airport construction project. Construction on this location will be expected to start 6 months after board approval.

All Minimum Requirements are a MUST:

1. Provide a self-ordering and/or self-checkout option.
2. Use sustainable and collapsible packaging.
3. Provide a sense of place for the cities of Dallas and Fort Worth.
4. Have employee discounts per the lease.
5. Cooperate fully with the implementation of the POS integration.
6. The ability to conduct sales transactions using hand-held credit card processing devices or other forms of technology to ensure speed of service.
7. Sign up with our mobile ordering partner to participate in the DFW Market and to provide passengers with the ability to order on the go and/or delivery.

Design Requirements:

1. This location will not be provided a Whitebox, the selected proposer will be responsible for the demolition of all current finishes. The storefront opening and signage shall be placed at the entrance of the space in accordance with the Tenant Design Manual (TDM). The tenant storefront materials may only exist within the stainless-steel neutral frame as depicted in the TDM as a design condition. The electrical service location may need to be relocated/consolidated to accommodate the new layout and comply with applicable codes. The electrical equipment may be reused if deemed sufficient by the Engineer of Record (EOR). Existing HVAC equipment and other infrastructure may be utilized if adequate for the proposed concept, and in good working order as certified by the EOR. Additional HVAC may be required, depending upon kitchen design. The successful proposer will be required to provide branch water, sanitary sewer, and grease waste lines to accommodate the proposed layout. Selected proposer will be responsible for bringing utilities to the space from nearest tie-in point which may be outside of the Lease Outline Drawing (LOD). All tenants will be required to connect to the Airports proprietary life safety systems, install an HVAC sensor to connect to base building automation systems. All aspects of the tenant design must be compliant with the Airport Concessions TDM.
2. The selected proposer must retain or install a door sensor and controller module. This is a proprietary system that must integrate into DFW's existing building automation system. More details will be provided during the design review process.
3. Refer to the TDM, to which all aspects of the design must align.
