

FTRSuite

OVERVIEW:

FTRSuite is a training and operations platform designed for Aircraft Rescue Fire Fighting (ARFF) and airport personnel. Train on aircraft systems, airport layouts, emergency response scenarios, and fire strategy with interactive tools designed for classroom and operational training.

AIRCRAFT FAMILIARIZATION

- Interactive training on aircraft systems, characteristics, and emergency considerations across a variety of aircraft.

AIRPORT FAMILIARIZATION

- Explore airport layouts and environments to build familiarity with facilities, locations, and operational considerations.

STRATEGIES & TACTICS

- Build and teach emergency response scenarios using an interactive fire-strategy board. Start with preset standard scenarios or build customized scenarios around your own airport and locations. Instructor and student stations can connect for coordinated, multi-station classroom training.

PLATFORMS:

Desktop: Windows PC | **Mobile:** Android & iOS (Limited Version)

COST:

\$1,500 Per License / Year

25-DAY FREE TRIAL:

Download the desktop client and experience FTRSuite for yourself.
