

ADVANCED ARFF AVIATION INCIDENTS

OVERVIEW:

If you are a certified ARFF firefighter looking to improve your ability to manage the first 20 minutes of an aviation incident, this course builds the skills needed to make fast, effective decisions under pressure at any airport.

Train on managing initial strategic priorities and tactical operations, including hands-on response scenarios, while stepping into the incident commander role to make assignments for both minor and major incidents. How this course impacts you:

- Search & Rescue
- Interior/Exterior Operations
- Large Airframe Hose Deployment
- Real-world Scenario Training
- Tactical Decision-Making Under Pressure
- Incident Command System Familiarization & Practice
- Proprietary Tabletop Command Simulations

This training meets applicable requirements in FAA FAR 139.319(i)(2), NFPA 1010 Standards for Airport Fire Fighter, and ICAO Airport Services Manual, Part 1 – Rescue and Fire Fighting (Doc 9137).

COST:

$1,500 Per Person
