

FOAM APPLICATION COURSE

OVERVIEW:

Elevate your firefighting skills with our Foam Application course! This comprehensive 3-hour training blends 1.5 hours of expert classroom instruction with 1.5 hours of hands-on live fire foam application. Here's what you'll master:

- Understanding regulations and the science behind PFAS/foam
- Differences in chemical makeup, mechanical functionality, and application techniques between AFFF and fluorine-free (F3) foam
- Prioritizing foam application and refining essential techniques
- Navigating F3 issues and managing F3 foam blankets
- Truck transition considerations

This combined classroom and live fire training meets the standards of NFPA 1010 (formerly NFPA 1003) and FAA Advisory Circular 150/5210-17C.

SCHEDULE:

We require a minimum of 5 students to schedule a course, with a typical class size capped at 15 students. If you can gather 5 or more students, we'll work with you to set up a course, giving you more flexibility in choosing dates that work best for your team.
