

MOVING FORWARD

Infrastructure That Transforms Travel from the Inside Out

July 30, 2025

AGENDA

01 Construction Roadway Detours

02 Receiving & Delivery Updates

REROUTING THE FUTURE

What Terminal B Detours Mean for You

Tammy Huddleston, Vice President DCC

International Parkway Modernization Terminal B Tie-In

August 6, 2025

What is the IP Modernization Project?

Overview

Project Scope: This project will remove the 50+ year old left-hand exit flyover bridges for Terminals A, B and C along International Parkway. These will be replaced with right-hand exits to enhance safety and wayfinding for our customers. Additionally, existing high mast light (HML) poles will be replaced and updated with LED lights.

Substantial Completion: October 2026

Early Completion with Incentive: May 2026

Agenda

✈ Passenger Experience

- ✈ DFW Entrances
- ✈ Terminal B Inbound
- ✈ Terminal A to IP Northbound

✈ Bridge Demolition

- ✈ First 52 Hours of the 3 Month Detour

✈ Final Condition Animation

An aerial photograph of the Dallas/Fort Worth International Airport (DFW) is shown with a semi-transparent orange overlay. In the foreground, the ATIS tower stands prominently on the left. The middle ground features the airport's extensive terminal complex and parking areas. The background shows a hazy cityscape under a clear sky.

Questions?

An aerial photograph of the Dallas/Fort Worth International Airport (DFW) is shown with a semi-transparent orange overlay. The image captures the airport's extensive runways, taxiways, and terminal buildings. In the lower-left foreground, the iconic ATIS tower stands prominently. The background reveals a sprawling urban landscape with various city buildings and green spaces. The overall tone is warm and professional.
