O:TU INVESTMENTS LIMITED

Annual Report & Director's Responsibility Statement

The Director presents the Annual Report including the financial statements of O:TU INVESTMENTS LIMITED (the 'Company' and 'Group') for the year ended 31 March 2014 and the auditors' report thereon. The financial statements also include those of Otuwhero Trustee Limited, the subsidiary of the Company. The financial statements for the parent and group are the same and are not separately presented.

With the unanimous agreement of all the shareholders, the Company and Group have taken advantage of the reporting concessions available to it under section 211(3) of the Companies Act 1993 and has not complied with any of paragraphs (a), and (e) to (j) of section 211(1) of the Act.

The Director is responsible for ensuring that the financial statements give a true and fair view of the financial position of the Company and Group as at 31 March 2014 and its financial performance and cash flows for the year ended on that date. The Director considers that the financial statements of the Company and Group have been prepared using appropriate accounting policies, consistently applied and supported by reasonable judgements and estimates and that all relevant financial reporting and accounting standards have been followed. The Director believes that proper accounting records have been kept which enable, with reasonable accuracy, the determination of the financial position of the Company and Group and facilitate compliance of the financial statements with the Financial Reporting Act 1993. The Director considers that adequate steps have been taken to safeguard the assets of the Company and Group and to prevent and detect fraud and other irregularities.

Signed for and on behalf of the Board by:

Director

Date: 9 July 2015

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF O:TU INVESTMENTS LIMITED

Report on the Financial Statements

We have audited the financial statements of O:TU Investments Limited and group on pages 5 to 22, which comprise the consolidated and separate statements of financial position of O:TU Investments Limited, as at 31 March 2014, the consolidated and separate statements of comprehensive income, statements of changes in equity and statements of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

This report is made solely to the company's shareholders, as a body, in accordance with Section 205(1) of the Companies Act 1993. Our audit has been undertaken so that we might state to the company's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

Board of Directors' Responsibility for the Financial Statements

The Board of Directors are responsible for the preparation of financial statements in accordance with generally accepted accounting practice in New Zealand and that give a true and fair view of the matters to which they relate, and for such internal control as the Board of Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing and International Standards on Auditing (New Zealand). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view of the matters to which they relate in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates, as well as the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other than in our capacity as auditor, we have no relationship with or interests in O:TU Investments Limited or any of its subsidiaries.

Opinion

In our opinion, the financial statements on pages 5 to 22:

- comply with generally accepted accounting practice in New Zealand;
- comply with International Financial Reporting Standards; and
- give a true and fair view of the financial position of O:TU Investments Limited and group as at 31 March 2014, and their financial performance and cash flows for the year then ended.

Other Matters

We were appointed auditors of O:TU Investments Limited subsequent to the year ended 31 March 2014. The corresponding figures for the year ended 31 March 2013 are unaudited.

Report on Other Legal and Regulatory Requirements

We also report in accordance with section 16 of the Financial Reporting Act 1993. In relation to our audit of the financial statements for the year ended 31 March 2014:

- we have obtained all the information and explanations we have required; and
- in our opinion proper accounting records have been kept by O:TU Investments Limited as far as appears from our examination of those records.

O:TU INVESTMENTS LIMITED
NOTES TO THE FINANCIAL STATEMENTS
For the year ended 31 March 2014

1. Reporting Entity

O:TU Investments Limited (the "Company") is a company incorporated and domiciled in New Zealand and registered under the Companies Act 1993.

The Company is a reporting entity for the purposes the Financial Reporting Act 1993 and the Companies Act 1993.

The company is designated as a profit-oriented entity for financial reporting purposes.

These financial statements were authorised for issue by the Board of Directors on 9 July 2015

The principle activity of the company is vineyard maintenance and grape production.

2. Summary of significant accounting policies

The accounting policies set out below have been consistently applied to all years presented.

(a) Basis of Preparation

The financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP"), which complies with the New Zealand Equivalents to International Financial Reporting Standards ("NZ IFRS") and its interpretations and other relevant Financial Reporting Standards applicable to profit-oriented entities. Compliance with NZ IFRS ensures compliance with International Financial Reporting Standard (IFRS).

Historical cost convention

The financial statements have been prepared on the historical cost basis. Fixed assets have been recorded at cost less accumulated depreciation.

Parent & Group accounts

The only subsidiary of the company is Otūwhero Trustee Limited. The subsidiary acts only as trustee for an uncontrolled entity and has no assets, liabilities or transactions itself. For this reason, the financial statements for the parent and group are the same and are not separately presented.

Functional and presentation currency

All amounts are denominated in New Zealand dollars, which is the Company's functional and presentation currency.

(b) Revenue Recognition

Sales

Revenue on sales of goods are recognised when goods are delivered to and ready for use by the customer or when contractual term have been satisfied.

Interest income and expense

Interest income and expense are recognised on an accrual basis using the effective interest method.

Distributions and other income

Income from distributions is recognised when the Company's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

O:TU INVESTMENTS LIMITED
NOTES TO THE FINANCIAL STATEMENTS
For the year ended 31 March 2014

(c) Goods and Services Tax

With the exception of accounts receivable and payable, all items are stated exclusive of Goods and Services Tax.

(d) Foreign Currencies

At balance date, foreign monetary assets and liabilities are translated into New Zealand currency at the closing exchange rate and exchange variations arising from these translations are recognised in the income statements.

Transaction in foreign currencies are translated into New Zealand currency at the rate of exchange ruling at the transaction date or a rate approximating that rate.

(e) Property, Plant and equipment

The Company has three classes of property, plant and equipment:

- Land, dams and roads
- Computer equipment
- Tools & equipment
- Motor vehicles
- Vines

All property, plant and equipment is initially recorded at cost.

When an item of property, plant and equipment is disposed of, any gain or loss is recognised in the Income statement and is calculated as the difference between the sale price and the carrying value of the item.

Depreciation is provided for on a straight line basis on all tangible property, plant and equipment at depreciation rates calculated to allocate the assets' cost less estimated residual value, over their estimated useful lives.

Rates used during the year were:

- Land, dams and roads / Diminishing value / 0.0% - 6.0%
- Computer equipment / Diminishing value / 50.0%
- Tools & equipment / Diminishing value / 13.0% - 67.0%
- Motor vehicles / Diminishing value / 10.0% - 100.0%
- Vines / Straight line / 25 years

(f) Impairment

If the recoverable amount of an item of property, plant and equipment is less than its carrying amount, the item is written down to its recoverable amount. The write down of an item recorded at historical cost is recognised as an expense in the income statement.

The carrying amount of an item of property, plant and equipment that has previously been written down to recoverable amount is increased to its current recoverable amount if there has been a change in the estimates used to determine the amount of the write down. The increased carrying amount of the item will not exceed the carrying amount that would have been determined if the write down to recoverable amount had not occurred.

Reversals of impairment write downs on property, plant and equipment are accounted for in the income statement.

O:TU INVESTMENTS LIMITED
NOTES TO THE FINANCIAL STATEMENTS
For the year ended 31 March 2014

(g) Receivables

Receivables are stated at their cost less impairment losses.

(h) Payables

Payables are stated at cost.

(i) Financial Instruments

Financial Instruments are recognised in the balance sheet when the Company become party to a financial contract. They include cash balances, deposits, bank overdrafts, receivables, payables and related party balances.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets are classified into the following specified categories: financial assets 'at fair value through profit or loss' (FVTPL), 'held-to-maturity' investments, 'available-for-sale' (AFS) financial assets and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including trade and other receivables, bank balances and cash, and others) are measured at amortised cost using the effective interest method, less any impairment.

Interest income is recognised by applying the effective interest rate, except for short-term receivables when the effect of discounting is immaterial.

Financial liabilities

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

O:TU INVESTMENTS LIMITED
NOTES TO THE FINANCIAL STATEMENTS
For the year ended 31 March 2014

(j) Business Combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with NZ IAS 12 *Income Taxes* and NZ IAS 19 respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with NZ IFRS 2 at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with NZ IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

(k) Income Tax

The charge for current income tax expense is based on the profit for the period adjusted for any non assessable or disallowed items. It is calculated using the tax rates that have been enacted or are substantively enacted by the reporting date.

Deferred tax is calculated on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the statement of financial position. No deferred tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability settled based on tax rates that have been enacted or substantively enacted at the reporting date. Deferred tax is credited in the Statement of Comprehensive Income except where it relates to items that may be credited directly to other comprehensive income, in which case the deferred tax is adjusted directly against other comprehensive income.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

O:TU INVESTMENTS LIMITED
NOTES TO THE FINANCIAL STATEMENTS
For the year ended 31 March 2014

(k) Income Tax (continued)

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the company will derive sufficient future assessable income to enable the benefit to be realized and comply with the conditions of deductibility imposed by law.

(l) Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

i. Fair value measurement and valuation processes

In estimating the fair value of an asset or a liability acquired in a Business Combination, the Group engages third party qualified valuation experts to perform the valuation.

ii. Useful lives of bearer plants (vines)

As described in (m) below, the Company has early adopted the amendments to NZ IAS 16, Property, plant and equipment and NZ IAS 41, Agriculture as it relates to bearer plants. This requires management to estimate the useful lives of vines and depreciate the cost of the vines over their estimated useful lives. Management have estimated the useful lives of the vines to be 25 years. Useful lives and residual values are required to be reevaluated at every balance date.

(m) Changes in accounting policy and disclosure

i. New and amended standards not applied

The following new or amended standards or interpretations were issued but not yet effective for the year ended 31 March 2014 :

- Amendments to NZ IFRS 10 Consolidated Financial Statements, NZ IFRS 12 Disclosure of Interests in Other Entities and NZ IAS 27 Separate Financial Statements – Investment Entities
- NZ IFRIC 21 Levies
- NZ IFRS 9 Financial Instruments
- Amendments to NZ IAS 32 *Offsetting Financial Assets and Financial Liabilities*
- Annual Improvements to NZ IFRSs 2010-2012 cycle
- Annual Improvements to NZ IFRSs 2011-2013 cycle

The Director expects to adopt the above standards and amendments when they become effective. The Director anticipates that the adoption of the above standards and amendments will not have a material effect on the financial statements.

O:TU INVESTMENTS LIMITED

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2014

(m) Changes in accounting policy and disclosure (continued)

ii. Early adoption of Standards and Interpretations

The group has elected to early adopt the following standards or amendments that were in issue but not yet effective: Agriculture : Bearer Plants (Amendments to NZ IAS 16 and NZ IAS 41). The amendments bring bearer plants, which are used solely to grow produce, into the scope of NZ IAS 16 Property, Plant and Equipment (and out of the scope of NZ IAS 41 Agriculture) so that they are accounted for in the same way as property, plant and equipment. A bearer plant is defined as

"a living plant that:

- is used in the production or supply of agricultural produce;
- is expected to bear produce for more than one period; and
- has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales."

The amendments also clarify that produce growing on bearer plants continues to be accounted for under NZ IAS 41 and that government grants related to bearer plants no longer fall into the scope of NZ IAS 41 but need to be accounted for under NZ IAS 20 Accounting for Government Grants and Disclosure of Government Assistance.

O:TU INVESTMENTS LIMITED
NOTES TO THE FINANCIAL STATEMENTS
For the year ended 31 March 2014

22 Subsequent events

The Directors have resolved subsequent to year end to purchase the Items of Property, Plant and Equipment from Marlborough Vineyard Group Limited for an amount equal to their carrying value.

23 Parent financial statements

The only subsidiary of the company is Otuwhero Trustee Limited. The subsidiary acts only as trustee for an uncontrolled entity and has no assets, liabilities or transactions itself. For this reason, the financial statements for the parent and group are the same and are not separately presented.

24 Going concern

At year end the company's current liabilities exceed its current assets. The shareholder has pledged his continued financial support and subordinated all amounts due to him in favour of other creditors to enable the company to pay its debts as and when they fall due and to realise its assets in the normal course of business. On this basis the Director believes that the use of the Going Concern assumption in preparation of the financial statements remains appropriate.
