

Practice Note

Rights issue requirements and timetable

Applies to Listing Rules as at: January 2025
Last updated June 2026

Summary

This Practice Note describes the key actions for issuers undertaking a non-accelerated, renounceable rights issue.

Relevant NZX Listing Rules: 4.1, 4.3.1, 4.4.2, 4.17.1, 4.17.2, 4.17.6, 4.17.7

Under Rule 9.15.1 of the NZX Listing Rules (**Rules**), NZX Limited (**NZX**) may act by and through NZX Regulation Limited (**NZ RegCo**) in performing any function or discharging any power set out in the Rules. References in this Practice Note to NZX therefore also include NZ RegCo in relation to any regulatory activity or discretion.

The Rules enable Issuers to undertake different types of secondary capital raisings, including pro-rata Rights issues. Rights issues, unless an Accelerated Offer, must be Renounceable (with the ability to offer for sale Rights or Shares which relate to those Rights not taken up through a bookbuild or those Rights must be Quoted to provide Rights trading on market).

Under the Financial Markets Conduct Act 2013 (**FMCA**), most Rights issues are made in reliance on the "same class as quoted financial products" exemption (**QFP exemption**) in the FMCA. The information in this Practice Note is based on a Rights issue made under the QFP exemption that is not an Accelerated Offer.

Under the QFP exemption, Rights issues are not regulated offers and no prescribed disclosure requirements apply to Rights issue offer documents. For Issuers to be able to rely on the QFP exemption they must issue a QFP notice (also known as a "cleansing notice") at the same time the Corporate Action Notice is released.¹ Rights issues made under the QFP exemption do not require approval by NZX but will still require a form of Offer Document to be released under the Rules.

The Listing Rules impose specific disclosure and timing requirements for Rights issues. The key requirements are set out in Rules 7.4 and 4.17.

Theoretical ex-rights price (TERP)

Please note that NZX may discuss TERP calculations with issuers. TERP is used to set the reference price in the NZX trading system and NZX.com. Some issuers choose to publish TERP calculations in offer materials.

¹ Under Rule 4.17.6 or 4.17.7 (as applicable) a QFP notice must be released through MAP at the same time as the Corporate Action Notice for a Rights issue. The Rule has the effect of changing the "relevant time" for release of the QFP notice under [clause 20](#) of Schedule 8 of the Financial Markets Conduct Regulations 2014. Multiple QFP notices are **not** required.

Exercise Ratio

NZX expects any Rights (whether quoted or unquoted) will be exercised on a 1:1 basis. Any deviation from that ratio should first be raised with NZX and NZ RegCo for prior approval.

Timetable

The key steps involved in a Rights issue are set out in the table below. This timetable does not contemplate Accelerated Offers.
