

1964 SG Standard With Maestro Vibrola Faded Cherry Heavy Aged, Faded Cherry

Gibson Custom Shop is the pinnacle of craftsmanship, quality, and sound excellence. Each instrument celebrates Gibson's legacy through accuracy, authenticity and attention to detail.

Regardless of the fact that George Harrison and Eric Clapton rocked a '64 SG™ Standard, that model year was clearly a standout for SGs in general. The clunky side-pull vibrato had been replaced by the dependable Maestro™ Vibrola. The neck profiles had increased in size, resembling the profile found on 1959 Les Pauls™. And the balance, playability and look of the SG seemed to come into its own. For all those reasons, the Gibson Custom Shop is proud to present the 1964 SG Standard Reissue. Along with the Maestro Vibrola and chunky neck profile, it has all the hyper-accurate vintage specs one could possibly want -- original construction methods, a real red aniline dye finish, chemically-recreated plastics, replica electronics, and more. The result is perhaps the best looking, feeling and sounding SG Reissue yet. It also features Heavy Aging by the skilled artisans of the Murphy Lab. The Murphy Lab Heavy Aged finish treatment, paired with heavily aged hardware, simulates decades of heavy play wear, giving it the unique character, vibe, and feel of an original example from the Gibson Golden Era.

Finishes Available

Faded Cherry
