

'57 Classic Plus Pickup

Each '57 Classic Plus humbucker features the same enamel-like coated wiring, Alnico II magnet and maple spacers as in the original models, achieving a creamy, smooth output that sounds rich and full whether they're being played clean or overdriven. The '57 Classic Plus pickups are so authentic that they even carry the original "Patent Applied For" decal on the baseplate. All of them come with braided, two-conductor wiring and are fully wax potted to eliminate any chance of microphonic feedback.

Output: 8.3

Position: Bridge

Magnet: Alnico II

Wiring: 2-Conductor

Details: Like the '57 Classic but slightly overwound for increased output
