

FOR EVERY STAGE

Power Player SG, Exclusive, Dark Matter

The Power Player SG™ is a trimmed-down version of the legendary SG with a 22.73" scale length and slightly smaller body, making it an excellent choice for younger players. But make no mistake - this is no toy. The Power Player SG is a great travel guitar choice for more experienced players, too. The bolt-on neck has a sculpted heel for improved upper fret access, and it's powered by a pair of Epiphone 650R and 700T ceramic humbuckers for rich, full SG tone. The Power Player SG comes well-accessorized with a gig bag, strap, picks, and a guitar cord.
