

FOR EVERY STAGE

Les Paul Standard 60s, Ebony

The Les Paul™ Standard 60s models from Epiphone's new Inspired by Gibson™ Collection recreate the sound of 1960s era Les Pauls. Featuring a classic mahogany body with a maple cap, Grover® tuners, and powered by ProBucker™ humbuckers with CTS® potentiometers. Epiphone's long friendship with Mr. Les Paul began in 1940 when Les built one of the world's first solid body electric guitars while working nights at the original Epiphone factory in Manhattan. Les' first solid body guitar, nicknamed "the Log", would go on to inspire the Les Paul Standard, which many consider the greatest electric guitar ever made.
