

Tony Iommi Signature Humbucker Pickup

As Gibson's first Signature Series humbucker, the exclusive configuration of powerful magnets and special windings give this pickup the incredible sustain and tone that have made Tony's work with Black Sabbath instantly recognizable. With its full-shred tone, incredible sustain and note clarity, this Gibson pickup will put you out in front where you belong. Its razor-sharp highs and well-defined mids and lows will add a new personality to your guitar. Features shielded, four-conductor wiring for series, parallel or split coil operation, and is fully wax potted and epoxy'd for absolute protection against unwanted feedback.

Output: 13.7

Position: Both

Magnet: Alnico II & Ceramic

Wiring: 4-Conductor

Details: Heavy rockers and metal players paying tribute to legendary monster tones will find them in our Tony Iommi Signature Humbuckers!
