Power Player Les Paul, Exclusive, Dark Matter

The Power Player Les Paul™ is a trimmed-down version of the legendary Les Paul with a 22.73" scale length and slightly smaller mahogany body, making it an excellent choice for younger players. But make no mistake - this is no toy. The Power Player Les Paul is a great travel guitar choice for more experienced players, too. The bolt-on mahogany neck has a sculpted heel for improved upper fret access, and it's powered by a pair of Epiphone 650R and 700T ceramic humbuckers™ for rich, full Les Paul tone. The Power Player Les Paul comes well-accessorized with a gig bag, strap, picks, and a guitar cable.
