

FOR EVERY STAGE

Tommy Thayer "Electric Blue" Les Paul, Electric Blue

The Tommy Thayer "Electric Blue" Les Paul was designed by KISS legend Tommy Thayer and is his fourth signature model with Epiphone. The unique Electric Blue finish came about via fellow KISS bandmate Eric Singer, who turned Thayer on to custom painter John Douglas who collaborated with the Epiphone team on the color.

Thayer says, "I play the Epiphone all the time and they sound like a great guitar should." Thayer's guitar is equipped with Seymour Duncan® humbuckers, engraved

Tommy Thayer metal truss rod cover, chrome-finished pickguard, eye-catching Electric Blue sparkle finish, Spaceman logo on the back of the headstock, and a custom blue hardshell case. Available for a limited time.

Finishes Available

Electric Blue
