Jimi Hendrix™ 1969 Flying V, Aged Ebony

Gibson Custom Shop is the pinnacle of craftsmanship, quality, and sound excellence. Each instrument celebrates Gibson's legacy through accuracy, authenticity and attention to detail.

Jimi Hendrix is widely regarded as the most innovative guitarist of the rock era. This Custom Shop Flying V™ is a right-handed recreation of Jimi's left-handed 1969 Gibson Flying V, which he custom-ordered directly from Gibson. Used during the Band of Gypsys era, it was made famous by Hendrix's performance at the Isle of Wight Festival on August 31, 1970. It features a Murphy Lab Aged Ebony finish, as well as aged gold hardware. Only 125 right-handed models will be created as part of this very special run, hand-made by the expert luthiers and craftspeople of the Gibson Custom Shop in Nashville, Tennessee, USA.
