

Aspen Dental is breaking down barriers to better care, better smiles and better lives. It starts with state-of-the-art offices in awesome locations. Aspen Dental-branded practices make it easier for patients to access a full range of affordable, high-quality dental and denture services, including preventative care, general and specialty dentistry.

Located in super-regional retail areas, this year alone, the 1,000-plus Aspen Dental-branded practices will service more than 5 million patient appointments, including one million new patients. The Aspen Dental network is expected to expand by another 75-100 practices each year.

Site Criteria

Prime Retail Location

Aspen seeks A+ retail locations in major retail areas. We look for prime retail visibility, including maximum storefront and pylon signage opportunities, strong traffic counts, easy access and ample convenient parking.

Trade Area

Regional retail trade areas

Target Demographic

Middle income, Blue collar, Seniors

Size

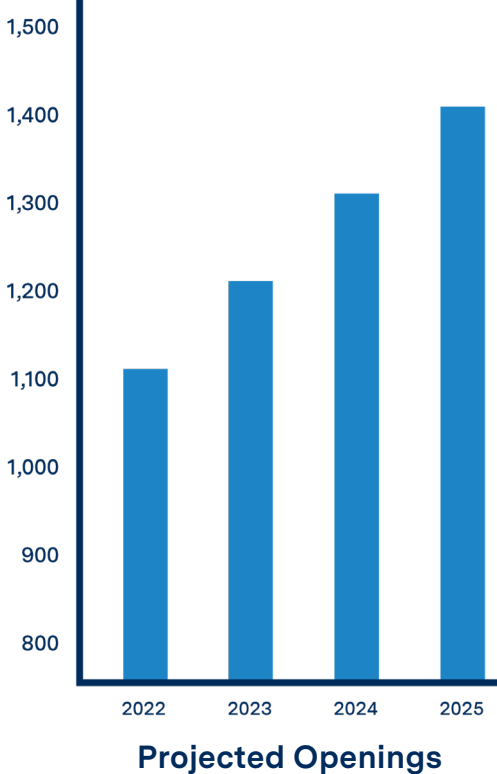

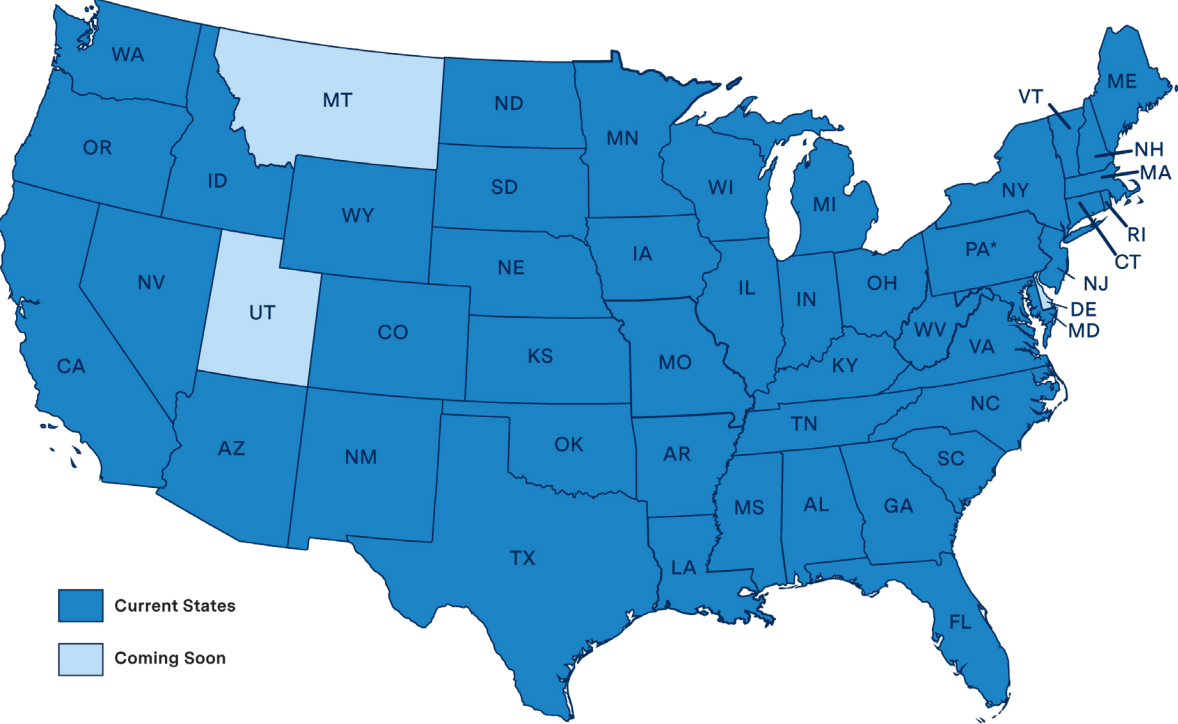

Free-standing and shop-space end caps

3,500 square feet

50 feet frontage (minimum)

More states, more smiles!
