# PCW-04-TYPE FLOW REGULATORS

Bore diameter: G 1/2 "

Pressure range: 20-80 psi / 1.4-5.5 bar

| PCW-04 1/2" Flow Regulators                                                         |             |               |                  |                          |
|-------------------------------------------------------------------------------------|-------------|---------------|------------------|--------------------------|
| color flow regulator                                                                | designation | flow rate     | part number      | divergent pressure range |
|   | PCW-04      | 8.0 l/min     | <u>584720000</u> | 1.5-6 bar / 21.8-87 psi  |
| PCW-04-DC 1/2" Flow Regulators                                                      |             |               |                  |                          |
| color flow regulator                                                                | designation | flow rate     | part number      |                          |
|  | PCW-04-DC   | 1.0 gpm max.  | <u>584722000</u> |                          |
|  | PCW-04-DC   | 1.2 gpm max.  | <u>584723000</u> |                          |
|  | PCW-04-DC   | 1.5 gpm max.  | <u>584724000</u> |                          |
|  | PCW-04-DC   | 1.75 gpm max. | <u>584725000</u> |                          |
|  | PCW-04-DC   | 2.1 gpm max.  | <u>584721000</u> |                          |
