Introducing Teamship.

Teamship is a **work-based learning experience** where teams of students solve real problems for real businesses, in school during the school day.

"The best professional development I've ever done... I went through the Coaching Institute and immediately wanted to start Teamship at my school... This is a great opportunity to bring the internship TO the students... There was a waiting list for the first year and I'm excited to continue to grow the program!"

— Joy Tavano, NAF Teacher & District C Coach, North Kingstown, RI

Why Teamship for Mentored Industry Projects?

Social Capital

Students connect directly with employers in your community.

Future Ready Skills

Students develop the durable skills needed for modern work.

NAFTrack Certification

Students earn 40 hours of internship credit towards NAFTrack certification.

"Teamship helps students learn about and practice collaboration, problem-solving, and how to communicate effectively with a variety of stakeholders, all key skills employers are looking for in their future talent. The Coaching Institute does a phenomenal job of preparing educators to guide their students through this process... I highly recommend this program to all educators who are looking for real-world opportunities and work-based learning for their students."

— Brooke Rice, Ed.D., Vice President, Work-Based Learning, NAF
