

NAF Interest Survey

Emerging Academies

NAF is passionate about creating partnerships around a unique framework that makes access to essential opportunities possible by connecting students, educators, and businesses to strengthen communities.

Together, we can ensure every student has the power to leverage greater opportunities, ignite their career aspirations, and help them become future ready.

Instructions: Please choose the admissions option that aligns with your academy development needs by selecting the corresponding box and then complete the survey. All applications are subject to approval.

Year of Planning

Year of Planning: A customized developmental process for establishing a NAF academy. Schools with limited or no experience in designing a career-focused program receive personalized support and guided technical assistance to align their programming goals with the NAF Design before the academy launches. This planning phase typically lasts one school year but can extend from 6 to 18 months. This approach helps establish a sustainable foundation for academic success and builds the capacity to fulfill commitments to students and the community.

Fast Track

Fast Track: An accelerated path to NAF membership. The process is designed for existing career academies that already meet most NAF standards, NCAC, or Linked Learning Certified, and seek full membership benefits. The application process typically last three months and involves gathering all necessary documentation to demonstrate alignment with the NAF Design, allowing for an expedited academy launch and providing access to the associated support and resources.

Interest Survey

Please take our interest survey to determine if your school aligns with essential criteria for [starting a NAF academy](#). If you answer "No" to two or more questions, we recommend focusing on enhancing your school's capacity to meet these standards before proceeding with the application process.

1. Are career academies a part of the district/school strategy for school improvement? Yes No
2. Can the district/school commit resources to start a career academy (e.g., financial, human capital)? Yes No
3. Does the district/school have support from local business, community, civic, and government entities? Yes No
4. Does the district/school support an open choice academy enrollment process? Yes No
5. Does the district/school have the capacity and interest to support [NAFTrack Certification](#)? Yes No
6. Does the district/school support work-based learning opportunities that allow high school students to connect their classroom experiences to college and career opportunities? Yes No
7. Does the district/school support student-centered authentic project learning experiences that encourage voice and choice, reflection and agency, imagination and innovation, and career exploration? Yes No
8. Can the district/school commit to recruitment efforts resulting in at least 20 students per grade? Yes No
