

Academy of Health Sciences

Curricula & Content

We offer health sciences courses, along with third-party content to support educators and students. State-approved programs of study are also recognized. All courses, projects, and resources are available at learning.naf.org.

NAF courses and content are FREE for NAF academies.

Projects are open access; courses require a NAF login.

NAF.ORG

NAF Courses & Projects

Health Careers Exploration (Year 1)

Surveys health careers across diagnostic, therapeutic, informatics, support services, and biotechnology research & development.

Foundations of Anatomy & Physiology 1 & 2 (Year 2) NEW!

Yearlong lab courses covering body systems, anatomy, physiology, and medical terminology.

Global Health (Year 3 or 4) NEW!

Explores global health challenges, socioeconomic factors, risk factors, and strategies to improve outcomes.

Biotechnology (Year 3 or 4 · Sunsetting)

Introduces biotech research, product development, lab techniques, and scientific record-keeping.

Exploring Oral Health (modules)

Builds understanding of oral health and its connection to overall well-being; easy to integrate into existing curriculum.

NAF AI Career Connections
