

Corporate Hiring Profile

About KPMG

At KPMG LLP, we seek individuals who demonstrate strong core competencies that prepare talent to thrive in a rapidly evolving workplace. These include communication, collaboration, critical thinking, problem-solving, initiative, and technological fluency. In practice, these skills empower our professionals to navigate complex client challenges, work effectively across teams, and adapt to emerging technologies like AI. Through AI-embedded learning experiences, role-based credentials, and strategic learning paths, KPMG fosters a culture of continuous growth. Whether it's through client engagement experiences, contributing to innovation, or mentoring future talent, these skills are foundational to delivering impact and driving transformation across the firm.

Examples of skills that are needed for a role at KPMG:

- **Communication:** Effective communication skills are crucial for collaboration and conveying ideas clearly.
- **Collaboration:** Working well with others, both within and outside the organization, is essential for success.
- **Critical Thinking:** The ability to analyze situations and make informed decisions.
- **Problem-Solving:** Tackling challenges and finding solutions efficiently.
- **Technical Skills:** Proficiency in relevant technologies and tools.
- **Technological Integration:** Understanding and leveraging modern technology to enhance business operations.
- **Strategic Thinking:** Ability to see the big picture by understanding how tasks contribute to overall goals while proactively identifying potential challenges.
